

The First Day presents:

June 1st 2005
Tripslip #1

Lead By:

Mike "M Funk" McLellan
Ari "David Jackson" Miller

To Bring Each Day

- Hiking Boots
- Daypack (notebook + pens)
- First-aid kit
- Water
- raingear
- Big Lunch (big enough to share with leaders)

Hello dear sir and/or madame!! Welcome to the first day of the most spectacular month you will ever experience... EVER! Did I mention ever? The acronym above stands for the Environmental Science Program and the "05" stands for 2005 which is the year we are currently occupying. If you are in the right place nice work. If you have never heard of Envi. Sci, you are in the wrong place but feel free to stick around. You'll have a lot more fun with us. What you are holding in your hands is what I like to call a tripslip, your key to the treasure chest of trip information. Everyday you will receive a tripslip telling you where you will be going the next day along with other vital information such as what to bring and where to meet. Be sure to save them all because then, years from now, you can look back and remember the best month ever! Be sure to bring them home to your legal guardians so they know what's going on. Today we will learn all about the environment around Brown and Newton south. Be sure to pay attention because you'll have to use what you've learned in a fun game which I want to win. Now let's get this party started!!!!!!!!!!!!!!!!!!!!!!!!!!!!

TRIPSLIP
#1

FIRST DAY OF THE ENVIRONMENTAL SCIENCE PROGRAM!!

BROWN MIDDLE SCHOOL; JULY 1, 2005
9:00 AM - 4:00 PM

LEADERS: NATE KAUFMAN!
(DAVID) KRINSKY!

¡BIENVENIDO! ENVI-SCI (A.K.A. "E.S.P.")
WELCOMES YOU CORDIALLY! On this, the first
day, we will get to know each other and, while
doing so, kick off a fantastic month of riveting
environmental knowledge. We'll look at plants,
animals, & fungi in the area and orient ourselves
with our surroundings. Keep your mind wide open
so I can stuff information in it like a Thanks-
giving turkey. Remember what you learn, because
you'll be quizzed on it later in the day (for a hand-
some prize!) Trivia question of the day:

How do you tell the difference between a red oak & a white oak?

EI PRIMER

DÍA

Trip slip # 1

Leaders: Nate Kaufman

(617) 796-7762

Maddie Logowitz

(617) 964-7689

July 1, 2003

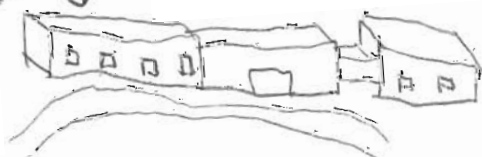

9 AM - 4 PM

Things to bring: fieldkit - raingear, boots, pocketknife, pen & pencil (or just paper and pencil - you don't need both a pen and a pencil), lots of water, a wild Honey Pie

For those of you who don't hablar el español, "primer día" means "first day."

On this momentous day, we will introduce you, the students, to the vast and diverse world around Brown.

Believe it or not, there is lots of cool stuff all around, from conglomerate rocks to sumac, (more on this as the day goes on). Make sure you listen well to everything Maddie and I say, for a great test of strength will you meet in the afternoon, and win we must.

First Day!!

- Place: Brown Middle School
- Time: July 1, 9am-4pm
- What you should have brought: Hiking boots, notebook, pencil, water, lunch, first aid kit, raingear, extra boot laces, backpack, map

Welcome to the first day of the Environmental Science Program (Envi-Sci for short) (ESP for really short). Since it's the first day, we won't be going very far. We will stick close to Brown, looking at the different plants and trees and animals. We will split up into our groups to walk around the area, and meet back together for lunch (my favorite part, mmm, lunch). We will also have a scavenger hunt, and maybe play some capture the flag. Get pumped for an awesome day!

Make sure to bring all the equipment, because when you find yourselves in that situation where you desperately need bootlaces and a pencil, you'll be prepared.

Quote of the Day:

"Don't ever get your speedometer confused with your clock. The faster you go the later you think you are."

THIS IS a TRIP SLIP, and you will get one of these every day at the end of the day and it will tell you what your next day's Trip is. Actually you (AKA: "Big Jeff" get two, one from each leader, Jeff D. or "DQ")

Formally welcomes you to the

FIRST DAY

Today's Schedule will include a short welcome period when you get to meet the other students and

read this TRIPSLIP. OF ESP

Next we will break up into our groups and begin our day of fun adventures. This will start with a walk around the school grounds and go over the plants we see. Then, after lunch, we will see how much you can remember by having a Scavenger hunt. The more you learn in the morning, the more you win in the

July 1st

stuff you should bring: boots, H₂O, food, field kit, raingear, notebook
and a pen and/or pencil

Yes, today is the beginning, my friends! From now until the end of the month you shall be exposed to the natural wonders of the world... locally. You get to hang out with your awesome leaders (awesome as in all-powerful and magnificent, and leaders as in wise/guides, not in the occult sense). Today we will explore around Brown and go on a scavenger hunt. If your with me we will chase squirrels because it is fun. I've also decided that our official Envi Sci mascot will be: "Squiflaco"

yes I know
this squirrel is better but he traced and I'm drawing in a marking car.

!! Squiflaco in your notebook

Leaders:

Mike McLellan
(617) 244-0998

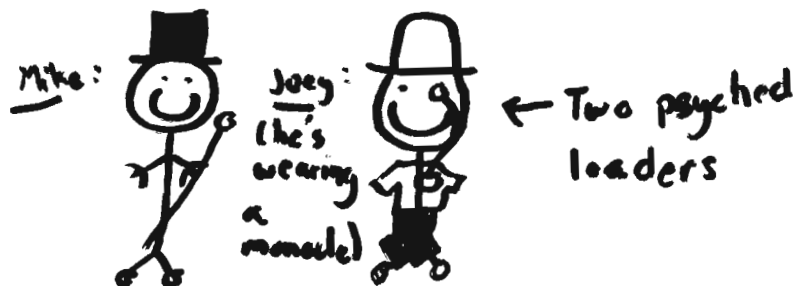

Joey "I'm too cool

Things you should bring
Water, backpack,
hiking boots, first aid kit,
rain gear, sunscreen,
big lunch (so you can
share with your leaders)

You thought it was 2004, didn't you?
it's not.

HOLY JUMPING KOALA BEARS, BATMAN! you've stumbled across the Environmental Science Program (also known as Envi-sci) (also also known as E.S.P.). You have just joined the elite group of amazingly awesome individuals known as the E.S.P. Students. I bet you didn't think you were going to be making history today. Well you were wrong but that's okay, you are forgiven. Today you will get the chance to meet some great new people and learn some kick-bottom new things like which tree has the best scent (trust me, it's cool). So prepare for the first day of the greatest month of your life. Are you pysched? I am! GET PSYCHED!!! WAZOO!

yes, I am
aware that
I spelled
pysched two
different ways

Lunch

Field Kit

Raingear

First Aid

Notebook

Sun screen

Optional Items:

A Belgian waffling iron, preferably battery operated, and at least ½ pound of batter already prepared.

Meeting Place:

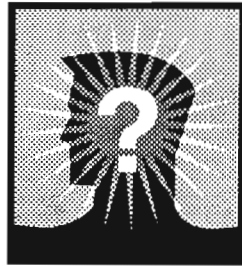

Brown Middle School!

Times:

Meet: 9:00 AM

Leave 4:00 PM

What you now hold in your hands is one of the most important items you will be given while at ESP! So pay attention! You SHOULD already know what it is called! You probably look like this guy, ← though! Up in the top right hand corner, it says this is a TRIPSLIP!

Tripslips contain all of the information you need to prepare for your trip the next day! As you can see in my totally useless example to the left, you will be told what to bring, what to wear, where to meet, when to meet, and in a few cases, what you will need to catch the evil roadrunner. You will get one at the end of every day, and you should bring it home, show it to your parents, and most importantly, read the whole thing. That's right, you have to be this guy, → but reading your tripslips instead of a newspaper.

I do, however, have to tell you what we are going to be doing today! First we will meet in our groups and learn how to use maps and compasses. Then, we are going to realize how much incredible plant life there is around us all the time. And then after lunch, we're going to make sure you learned something! So make sure you do!

And now...

WELCOME TO

In case of an emergency, your child will be brought to: Newton-Wellesley Hospital -- 617-243-6000

JEFF Decew
(617-964-7845)

What you should bring ^(have brought): hiking boots, extra laces, rain gear, first aid kit, daypack, notebooks, pencils, lunch, lots of water

Well, here we are. Welcome to the Environmental Science Program. Today we will be sticking close to Brown. The leaders in our group today are me, Jeff Huenenauerder, and Jeff Decew. We will be walking around the area looking at and identifying different plants and animals. By the end of the day, we will all be able to read a map, be able to tell apart red oak from white oak, know that despite its appetizing name, you should not eat deadly nightshade, and what ever else we can fit into the day.

This sheet is called a tripship. Every day you will get one or two of these, depending on how many leaders are on the trip. Make sure to read them so you know what you will need to bring the next day. If you sign up for a bike trip and don't read the slip to find out what you need and you forget a bike, you will probably have a hard time keeping up with the group.

I'm having a hard time keeping up with you!

Examples of plants we may see

Sassafras

looks like a mitten

Cattails

used for hitting things

Snake

not actually a plant

In case of emergency the nearest hospital is newton-wellesley Hospital 617-243-6000

ENVI SCI TRIVIA TIME!!

Welcome to the start of a month of intrigue, adventure, science and fun! You are lucky enough to have signed up for the most fabulous Summer Program ever, in my own humble opinion: The ENVIRONMENTAL SCIENCE PROGRAM! AMAZING! This fine, fine piece of literature you're reading now is your first TRIPSLIP--cherish it, frame it, make copies of it to hand out to your friends, and what have you. Trip slips prep you for the day by telling you what's up. (as in: today we're doing an awesome Scavenger Hunt of Glory and our rockin' group will surely win) and what to bring. (backpack, lunch, water, hiking boots, notebook, pencil, field kit). So sit back, read a cool book from our mini-library-- I recommend that "Garbage" one -- and get set for a kickin' July!

ESP IS SO COOL!

This person is cool b/c she is...
a) a leaf
b) a glacier
c) a cirrus cloud
d) an ESP Student

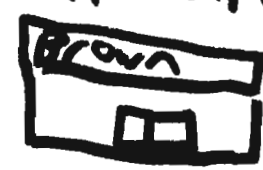

from sub 1

9am-4pm FIRST DAY

Welcome to the Environmental Science Program (envi-Sci). This will be the ~~Best~~  month of your life!!!

You will need hiking boots, Day pack, Pen and notebook, First aid kit, Rain gear, Water and..... a lunch . Get ready to identify plants because

NUMBER 1

1 JULY, 2005

9 AM-4 PM

THE FIRST DAY

BROWN MIDDLE SCHOOL - Well today is a glorious day! A glorious day, indeed. This sunny (cloudy? rainy?) morning marks the first step in the long and inspiring - nay, empowering - journey we'll all be

going through for the next month. This unassuming piece of paper is a TRIPSLIP: it is the outline that you will receive before every trip you go on. It includes the logistics of the trip - date, time, location, and equipment - plus who your leaders are PLUS what the trip is all about. For example, the First Day is all about getting oriented, learning plants + skills, and going on a Scavenger Hunt. Amazing!

THE JOEY BACKER & GARHETT SOLOMON
LEADERS: (617-969-0288) & (617-532-1362)

9-4 FIRST

Leaders:
Garbett
Solomon
+
Joey
Backer

Day!!!

Welcome to your first day of the best experience of your entire life! (aka Envi-Sci). Today will be an action packed day of identifying just about the coolest plants in town. You will need hiking boots, a daypack, a pen and notebook, lots o' water, mmmmm' waterrrr, rain gear, LUNCH, and a smile 😊. Be prepared to show everyone how cool you really are by winning the scavenger hunt. (even though there is no finish line in the hunt.)

DAY THE FIRST

July, 1, 2005
Tripslip #1

your leaders:
Jeff "J-Trek" Huem-
oeder
Dan "D-hike" Swartz
Lynda "L-walk" Kauldite

9 a.m - 4 p.m

Things you must have bring:

- a) daypack
- b) hiking boots
- c) 1-2 liters H₂O
- d) delicious lunch
- e) compass
- f) notebook
- g) pencil
- h) spare pencil
- i) raingear
- j) hunter green crayola crayon

If you are reading this here "tripslip" you are now participating in the soon-to-be-famous Environmental Science Program. Should you be lucky enough to be here for the first time then this is a tripslip, one of many you will be getting over the course of the month. They explain what the trip is about the times, where to meet, what to bring, and maybe some jokes thrown about the whole thing. It is super-extremely-imperatively-unequivocally-undoubtedly-awesomely-verity-spacefillingly-fundamentally-essentially necessary that you read the tripslips and bring them home to your parents.

Today is just a warm-up day to get you all introduced to what the program is like, and we'll finish up with a scavenger hunt. Now if you'll kindly fix your gaze at the front of the room, we will start.....NOW!

First Day

The all knowing
leader

? The student with his
eyes all a glow with
the joy of learning

Welcome to the very first day of the Environmental Science Program, 2003 style. You have stumbled across the greatest summer program to grace the face of this green Earth, the planet you will learn all sorts of wonderful and important information about over the next few weeks. Over the days to come you will learn everything you've ever wanted to know about Mother Earth and some stuff you didn't know you wanted to know, but you did. The voyage to enlightenment sets sail today so pack your gear, grab some strawberries, cheese cake (you can bring some for me too if you like) and prepared to learn. Yeehaw! We will start off with a brief slideshow, hopefully you brought your parents or if you are a parent, hopefully you brought your child. We shall then proceed to split up into small groups so we can eat some lunch (Woah! Lunch!), and get to know, not only each other, but also the wildlife around Brown and South. So be prepared for a day, no a month, of adventure and excitement (like Indiana Jones).

Date/Time: Monday, 7-1-02, 9 AM
Place: Brown Middle School (BMS)
Equipment: Fieldkit, boots, lunch, water, first aid kit, raingear

Gabe

Oh man, it's July, and that means it's time for more unbelievable Environmental Science Program Action. Your first question is probably "what am I reading?" This is a tripslip. Tripslips tell you everything that you could ever want to know about the trips you'll be going on. Normally you'll get them the day before the trip, so that you know where you need to be and what you need to bring.

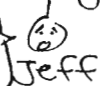

Nate

Amelia

How did I get up here?

Jeff

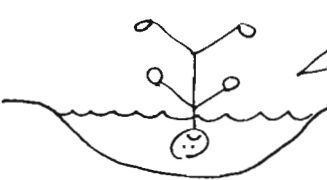

Do you prefer:

- A) Envi-Sci
- B) ESP

Today is by far the chilliest day of the program. Normally we walk places and jump in ponds, but today we're going to explore all around Brown. We'll see what sorts of ecosystems and plants and animals can be found, and you'll learn how to identify lots of things.

We'll also have a chance to play some games and get to know people. All of us leaders have "specialties" - things that we know really well. I mean, we're all super smart, but it still helps to specialize a little. So if you have any questions about anything that you find you can come ask us.

Danny

Joey

Today's big event is the scavenger hunt, which will require all your strength and moral fortitude, but the victor will be rewarded most richly.

And remember, leaders like it when you bring them cookies for lunch.

Jon

Sarina

I do hereby proclaim this Tuesday,
the first of July in the year two thousand
and three the very

Tripslip # 1
Times: 8:30am-4pm
@ Brown Middle School

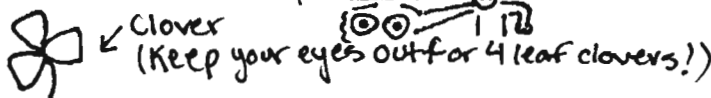

!!!!FIRST DAY!!!!

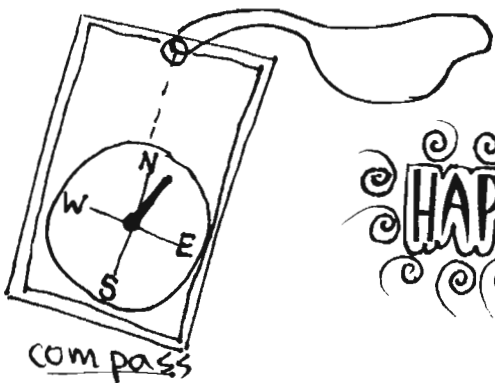

Today, while we do our scavenger hunt we will learn the names of a lot of cool plants and trees around this area!

Equipment: Backpack, lunch, hiking boots, lots o' water, field kit (rain gear, first aid, bootlaces, notebook and pencil....let me know if I'm forgetting anything) a compass!

Hello! Welcome to the environmental Science Program! Whether you have been here before or you are new student, you will be having a kickin' summer, and I'm glad to see you! So today the lovely Julie and I will be your leaders. We are gonna get to know each other by going on a scavenger hunt around the school and in the fields and such. We will explain further when we get to it. But we must win. It is imperative that we win! Keep your eye on the prize!

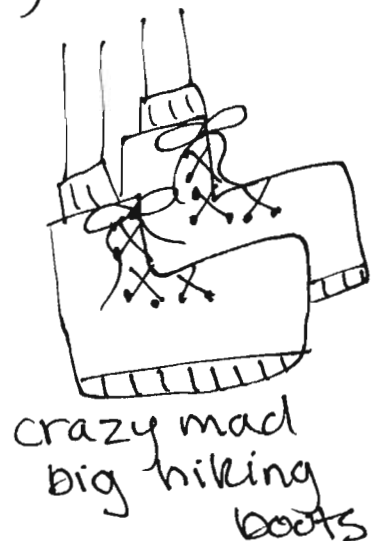

Also, in case you were wondering, this thing that you have in your hand right now is called a **tripslip**. You will get a tripslip each day, one from each of your leaders, if you have more than one. Tripslips have all the important information that you need to know about your next trip on them, so it is very important to carefully read all of them. And remember always that the first tripslip you ever had was especially crafted for you by your devoted leader, Amelia.

compass

HAPPY FIRST DAY!

crazy mad big hiking boots

Welcome One and All to the First Official Day of the 2001 Environmental Science Program.

I will now formally introduce myself...My name is Angela Simunovic...It's a tough one to pronounce I know, but we'll go through it together. What you are reading right now is a tripslip, it's a little ditty that tells you all the important junk like the time you are supposed to meet, where, and what to bring (that last ones a doozy). You'll be getting one of these before every trip and each one will be made by you leader for the day (exciting huh?) So this is the general setup for a tripslip:

Trip Name	Leader name Laeder phone
Equipment:	Location/time
Raingear	Brown Middle School
First Aid Kit	7:30 AM
Lunch	
Two ltrs H2O	
Notebook	

Then here we generally put some
Informational tidbits and such.

So that is the general tripslip tour...now we can move on. So you ask, what else do I need to know about the first day? Well there is tons (this is the little informational tidbit section). Today we are going to do some great stuff, like kick some in a scavenger hunt and win a really cool prize...I'm not bribing you honest. We are also going to go over some compass stuff (everyone knows that you Never Eat Shredded Wheat right?). And we are going to play some games. So strap on your seatbelts and put your engines in gear...We're ready to roll!

FIRST DAY.

Tripslip number: One (1)

Date: Thursday, July Fifth, Two-thousand-one (7/5/01)

Time(s): Eight-Thirty until Four (8:30am-4pm)

Location: Brown Middle School, in Newton

Leader(s): Jonathan Rivnay (617-527-1849)

Required Equipment: Hiking Boots, Lots of Water, Lunch (one that you will enjoy and benefit from, one that talks to you, and that you can relate to), and of course, your Field Kit (Raingear, First Aid, etc.).

Tripslip Contents: "This." "Us." "Me." "Today."

THIS.

i am sure by now that you are reading this and asking "hey, what is this that I am reading." actually who am i kidding, none of you are *really* reading this because you don't really care...but i am going to tell you what *this* is anyway. this...is a **tripslip**, look around (no, not around the room, around this tripslip) notice how much useful and important information you can and will find on this one piece of paper. at the top, you can find out times, numbers, dates, leaders, locations, and important equipment you will need to bring on the trip. in addition, you will find the days forecast, and other important information you should know about where you will be going the next day. it is important that you read over the tripslip carefully, so you know what's happenin' the next day. don't forget to pick up the tripslips each day.

U.S.

i am sure that by now you already know about the environmental science program, since you are here right now. some people call it *envisci*, others *envi-sci* (with the hyphen) others *e.s.p.* personally i prefer to say *envisci* and to write *e.s.p.* this way, it's as short as possible in both cases.

ME.

i'm jonathan rivnay, and this is my sixth year with the environmental science program (three as a student, three as a leader) i don't know how this happened, but somehow i'm here. as i'm sure you have noticed i'm as not too fond of capital letters in text...and i don't find numbers very amusing also, digits that is, you know, zero through nine....i also wish sometimes that i could be british, yes british, you know.....with the accent and such, wow, what an accent. but no, don't be afraid, most people say i'm normal.

TODAY.

today, among other things, we will get to know our fearless leaders, as well as each other, and then walk around the brown middle school and the newton south high school area and learn about our surrounding environment. everything from trees, flowers other plants and rocks, to clouds and such. then, after walking around and havin' a kickin' time, we will eat our big d-lishus lunch, and we'll wrap it up with the scavenger hunt!

Weather Forecast (by boston.com):

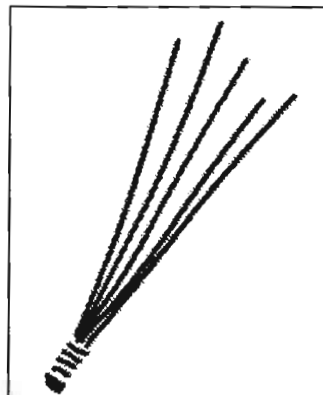

EnviSci takes no responsibility for the accuracy of the boston.com weather forecast. You must bring your raingear and lots of water, no matter what!

**Thursday,
July 5, 2001**

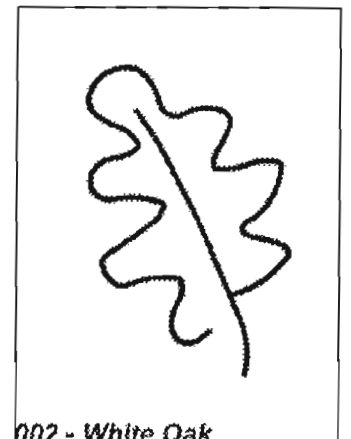

showers:
H80 / L60

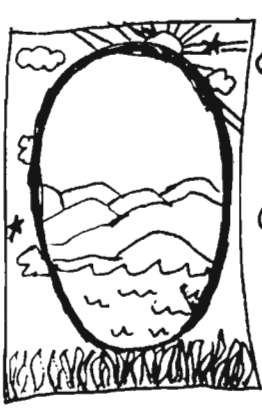

Scattered showers are possible early Thursday, perhaps a thunderstorm, then gradual clearing with sunshine developing. Breezy at times. A chance of a late day shower or thunderstorm. Highs 77 to 82. Mostly clear and comfortable Thursday night. Lows 58 to 63.

001 - White Pine

002 - White Oak

Trip slip #1
July 5, 2001 at Brown

Leader: Sarina Yospin
969.3966
Equipment: Field kit,
boots, lunch
water

On the first day...

The Leaders created Envi-Sci!
And it was good!

Welcome to your really fun, hilarious,
"cold chillin'" (if you will) month of July!
Plus a couple days of August! You will
love the Program. No really, you will.

I love
Envi-Sci

Typical
happy
student

THIS IS ALL STUFF
YOU SHOULD HAVE NOW
AND MUST HAVE **EVERY
DAY**

You are reading
a trip slip,

source of your
trip destination,
needed equipment,
leaders' phone #s
(please don't stalk us),
and general ESP know-how.
READ IT! ALWAYS!
**SHOW IT TO YOUR
PARENTS!!!**

Today, you will meet your
leaders and get acquainted with
the Brown area & its wildlife.
We'll do a scavenger hunt.
Yee hah! Our group is the best!
We'll learn about cool plants
that live around here!

EXTRA CREDIT POINTS FOR LIFE IF...

...You can name Earth's
largest rodent

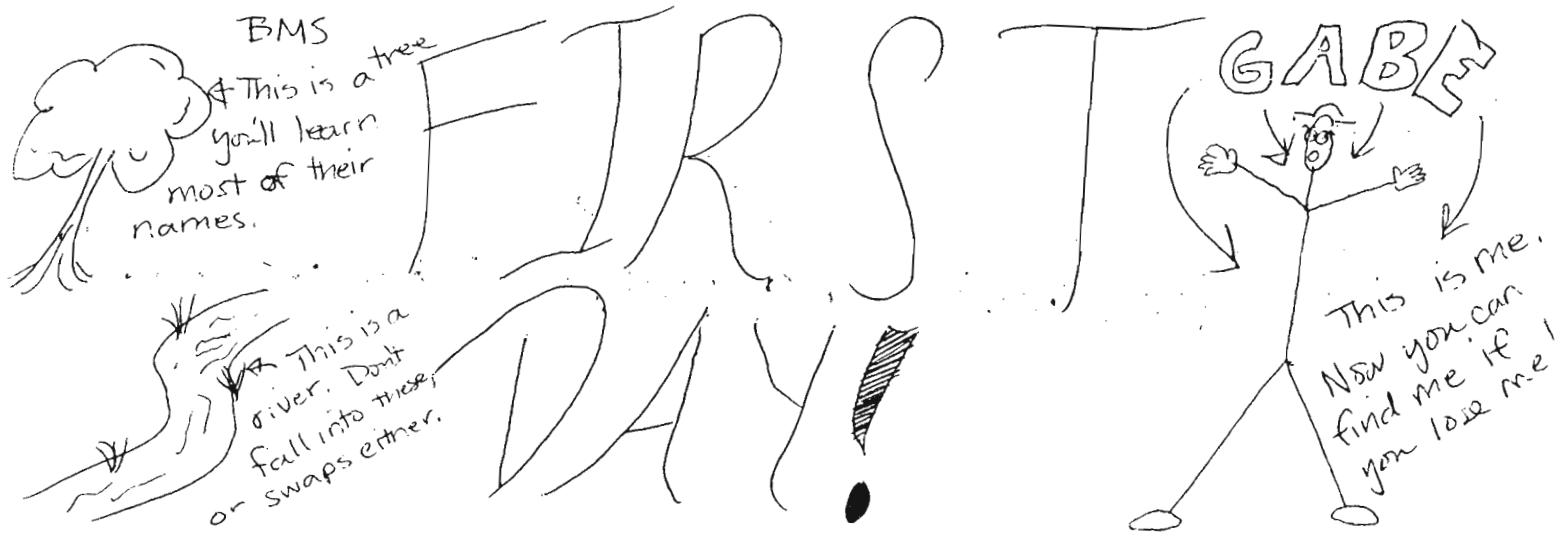

colossal
rodent
wheel

Trip slip # 1
 Date: July 3, 2000
 Times: 8:45-2:00
 Place: Brown Middle School
 a.k.a.

Welcome to
 The Environmental Science
 Program's

Leader: Gabe Yospin
 969-3966

Equipment: Field kit, Boots, lunch,
 water

Welcome to Envi-Sce, the most awesomest summer program around. Most days, we hike around Newton, and visit all sorts of awesome places. But today is special - we're going to hike around Brown and South and look at some of the awesome plants and animals! There are tons of really cool, exotic plants that most people don't know about, but by the end of today, you will. Note: there is something of a contest between all of the groups. at the end of the day, and the winning team get a prize, probably something edible, so keep that in mind.

Well, I'm glad you asked - this is a trip slip (like it says at the top). Trip slips tell you everything that you need to know about the trip. You usually get them the day before, so you can call your leader if you have any questions. You should keep these and bring them with you on the trip the next day.

- Well, I'm glad you asked - every day, you will need your field kit, which includes:
- DAYPACK
 - FIRST AID KIT
 - NOTEBOOK + PENCILS
 - RAINGEAR
 - COMPASS
 - POCKET KNIFE
 - EXTRA BOOT LACES
 - LUNCH
 - WATER (2 parts H, 1 part O, and all delicious)
 - CHANGE FOR PHONE CALLS
- And you need to wear your boots every day.

WELCOME TO ENVI-SCI '92

THE FIRST DAY!

LEADER: Pam Mahoney (577-5831)

EQUIPMENT: hiking boots, 1st aid kit,
lunch, raingear

DATE: July 11, 1992
TRIPSUP#: 1

1st DAY GROUP: Kimball Gallagher, Sarah Hamilton, Greg Scillian,
Allan Telco, Dan Thomasses

The program has finally begun! -yeah! Here are a few things you should know: THIS is a TRIPSUP. You will receive one every day of the program. Be sure you take one at the end of each day for the following day's trip.

Tripslips will include your leader(s) name(s) and phone number(s), the date and tripslip number, the time the trip departs and returns, and all of the equipment that will be needed for your trip. The tripslip also tells about the destination of the trip & any cool information about that place and activity.

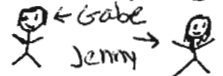

Today we will hang around South. In the morning, we'll get to know one another, and learn the all-important mapping skills. After lunch, we'll go on an exciting scavenger hunt - GOOD LUCK!
after all this, we'll play group games :)

HAVE FUN!

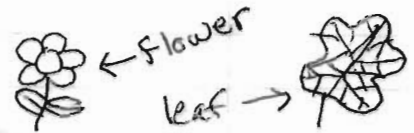

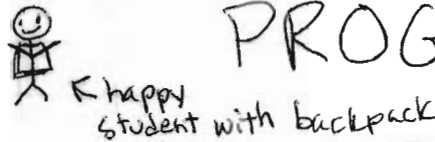

Welcome to the

1998

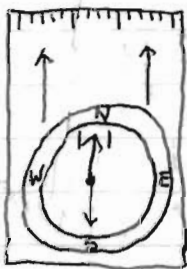

ENVIRONMENTAL SCIENCE PROGRAM

Leaders: Jeff Wong 332-3617
Angela Simonovic 527-7993
Date: July 1, 1998 Time: 9am-2pm
Trip slip #1
Meeting place: Brown Middle School

Hi! You're finally done with school! Now the fun stuff starts. We're going to have a great summer. This here sheet you're reading is called a trip slip and you get one at the end of each day. It is important that you read the trip slip each day because it contains information like where and when to meet, what to bring, and other important stuff like that. By now, you might be thinking... what are we doing today? Well, I'm glad you asked. Today, we're gonna walk around the Brown area and learn to identify cool stuff like plants and trees. Pay attention cause we're having a scavenger hunt after lunch and I don't know about you guys, but I want to win! We're having our first real trips tomorrow. Most are from 9am to 2pm. What are these trips for anyway? These trips prepare us for the final Mountain sequence including

What's this funny looking do-hickey thing?

← This is my attempt at drawing a compass! Here at the program, you'll be using your compass quite a bit. Do you know

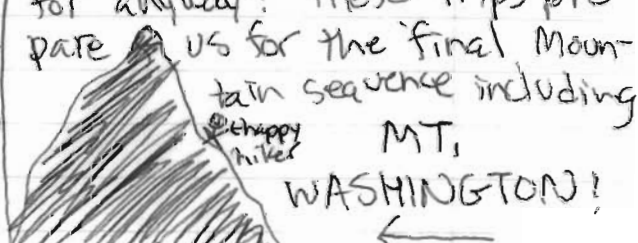

what a compass is used for? I'll give you a hint. It's one of the five things below.

- a) secret communicator to life in outer space
- b) secret ingredient in cafeteria ketchup
- c) an instrument used to guide and orienteer you so you know where you are
- d) glow in the dark stun gun
- e) key to the Environmental Science Program j.r.t.

Mr. tree asks...
What should you bring to Envi-Sci each day?
Mr. cloud says...

Your field kit! :over the ankle hiking boots, day pack, 1st aid kit w/ moleskin + quarters, pencils, notebook, rain coat, water bottle, pocket knife, extra bootlaces, lunch, trip slip, compass

Angela: 527-7993

Danny: 738-0269

Environmental Science Program

First Day!!!!!!!!!!!!*(8:00-2:00)

Welcome to your first day @ ESP! My name's Danny, and let me be the first to say that this will be the best summer yet at envi-sci. We have a great summer planed out that's going to be kick'n!

Today's going to be a relaxing one for you, one of the only days where we actually stay on campus. We will be exploring the different plants, animals, and habitats that exist around the Brown/Newton South grounds. We also have a scavenger hunt set for later, and we better win!

For future times we usually go to different parks and sites with a certain subject at hand. You will receive a trip slip, like this, one day prior to the trip. It will include all the information you need to know. You will be mixed with different students and leaders every trip, so by the end of the summer you know everyone. It's important for you to bring plenty of water and have a complete field-kit everyday.

Hope you all have a great summer here at ESP, If you have any questions, just ask me, or any of other the leaders, and we'll try our best to help you out.

Tripslip #1
July 2
Group: Dan Ordorica
Whitney Fraser
Tracey Northrup
Carolyn Berk

Leader: Gail Stanton (961-5657)
and
Anna Doherty (965-3815)
Time: 9am - 2pm
Equipment: Everything you brought

Welcome to the first day of the Environmental Science Program (Envi-sci) and to your very first "Tripslip." These little beasties are important because they give information on the trip you will be taking the next day, such as: times, special equipment, and destination.

From now on you will need all of the items on the Equipment List:

1. Over-the-ankle Boots
2. Day Pack
3. Waterproof Raingear
4. 1st Aid Kit
5. LUNCH (very important)
6. Canteen or Water Bottle
7. Pocket Knife
8. Notebook (9" x 6")
9. Pencils
10. Extra Boot Laces

Today we will be doing many fun and exciting things like mapping and identification games, and a scavenger hunt. (After we do not so fun things ~~are~~ like checking packs and first aid kits - yee haw). Without knowing it you will learn to orient a map and identify plants.

Once again welcome, and have fun on your first day and for the rest of the program. Feel free to ask any questions if you feel lost.

Remember: No Program on July 4

Happy 4th

First Day

Trip slip #1
July 3, 1995

Leaders:
Sarah Northrup
#965-4602
Peter Montague
#969-4196
Times: 9-2

Equipment: Lunch, Water bottle,
Notebook, First Aid kit, Pocket knife,
Rain gear, Day Pack, extra boot laces

Hi! Welcome to your first day at the Environmental Science Program. This thing you're holding is called a trip slip. You will get one for every trip. Always make sure you don't leave Brown at the end of the day without one. The information on the trip slips is important, so always read them. They give you an idea of what will be happening on the trip.

One of the things you'll be learning today is how to use a map and compass. (Why would it be important to know how to use a map and compass? Hint - where will we be later in the month?) We'll also take a look at some of the plants growing around Brown. Can any of you identify any plants? (Tree or shrub) Maples or Oaks? If not, don't worry we'll learn!

Have a great 4th! If you are missing some of it Wednesday!

Leaders: Jesse Sayles (965-2719)
John Rivnay (527-1849)

TRIPSLIP # 1

July 1st, 1999

Times: 9am – 2pm

Location: Brown middle school

The First Day

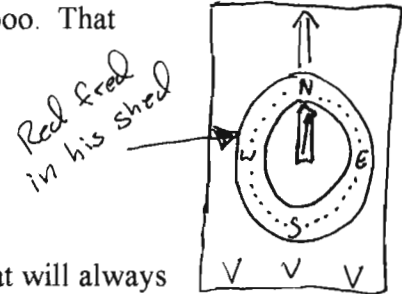

Equipment: backpack, Hiking boots, lunch, WATER (two quarts), Field kit (notebook, pencils, first aid kit, extra boot laces, rain gear, sunscreen, bug stuff, pocket knife)

Fred: Susan, I'm so excited that the program is starting. Woo hoooooooooooo. That Envisci to us insiders.

Susan: Me to Fred. I'm even more excited about the first Tripslip!

Fred: Say what??

Susan: The first tripslip. You know, this piece of paper that we're on, that will always have the name and phone number of the leader(s), what equipment the kids should have, what the kids will be doing that day, the times, and the location that the kids will be meeting at, and being picked up at.

Fred: Oh ya, I forgot. But I do remember what were doing to day. Were going to learn about some crazy whack funky plants and rocks, and then have a scavenger hunt. Yippee.

Susan: That's right Fred. Grab hold of your hats everyone because the Program is in full effect.

DO YOU KNOW WHICH ARE MONOCOTS, AND WHICH ARE DICOTS? PUT A "D" UNDER THE DICOTS, AND AN "M" UNDER THE MONOCOTS. If you don't know which are which, or what a Monocot or Dicot are, that's O.K, because you will by the end of the day.

Grass Maple Trees Corn Pea Nuts Dandy lions Palm Trees Oak Trees Chicory

Yay For

Gordon's #1.
Program

Trip slip # 1.
July 1, 1993
9:00-2:00 P.M.
Meet at Newton
South
Leaders: Gordon Robb
(244-9304)
Allan Tello
(969-4057)

- Equipment list
- 1. Over the ankle Hiking boots
 - 2. Day Packs
 - 3. First aid kit.
 - 4. Pencils
 - 5. Notebooks
 - 6. Water proof rain gear
 - 7. Pocket knife
 - 8. Canteen - H₂O
9. Lunch
(The best part of the
equipment list)
10. X-tra boot laces

Hi, this is a trip slip. You will get one of these every afternoon so make sure you pick one up so you know what trip you are going on and what you have to bring. On this trip slip give your leaders' phone numbers. So if you have any '????'s don't hesitate to call. ☺

Today we will be getting to know one another as well as learn the flora and fauna around Newton South High School. We will also explore how to use a compass and map. Our group for today will be Me, Allan Tello - my lovely assistant Junior leader Peter Dixon, Sarah Northrup, Russa Morris/O'Brien, David Wilkins and Lauren Merrill.

what's wrong with this
be Me, Allan Tello -

This is going to be a great month and a lot of fun. P.S. We will see their faces when you correctly identify Sassafras, Sumac, Wood Sorrel every bodies favorite, Pepper weed. Don't worry in just one short month you'll be able to. See Ya Tommaso (today actually) (have fun)

The Environmental Science Program

Tripslip #1 "First Day"
7-1-94
Time: 9:00-2:00
At: Newton South
Leaders: Dan Thomases 527-2763

Agatha Clancy 969-7407

Equipment: Lunch, water, Field Kit (rain gear, boots, notebook, pencils, first aid kit).

Hi, this is your first tripslip for the very first day of this year's program!

Today we'll be going around Newton South checking out our general environment and identifying plants and trees and such.

Firstly we will learn how to orient a map and move onto looking at little plants. After lunch we have a scavenger hunt. Four leaf clovers are key in this hunt, so if you see one during the day pick it up. It is also important to learn what we will have talked about in the morning. Finally, at the end of the day you will get your next tripslip and find out on what trip you will be going on, on Tuesday. I hope you have good time today and this entire month.

The Environmental Science Program is a real blast and pretty soon we'll be up Mount Washington and everyone will be wishing it was the first of July, today. Have a great summer!

LEADERS:

JENNY (969-2776)
AND
GABE (969-3966)

EQUIPMENT *YOU*

FIRST DAY

TRIPSLIP #1
7/1/98

TIMES 9 AM -

2 PM

LOCATION

BROWN
MIDDLE
SCHOOL

Woo Hoo! WELCOME TO THE MOST WACKY, WILD AND CRAZY SUMMER PROGRAM EVER CREATED! TODAY IS GOING TO BE MOSTLY INTRODUCTORY INFO FOR ALL Y'ALL. WE WILL BE TALKING ABOUT SOME OF THE PLANTS, WILDLIFE, AMONG OTHER STUFF SURROUNDING BROWN AND LEARNING ABOUT ORIENTEERING. "WHAT THE DEVIL IS ORIENTEERING?" YOU SAY? WELL MY FRIENDS, IT'S LEARNING HOW TO KEEP YOURSELF FROM GETTING LOST. MY PSYCHIC POWERS TELL ME THAT YOU ARE WONDERING WHAT THIS PIECE OF PAPER IS, GOOD, GREAT, GRAND, WONDERFUL! THIS IS A TRIPSLIP. YOU WILL GET ONE EVERY, YES EVERY, DAY THAT YOU COME TO THE PROGRAM. YOU PICK UP YOUR TRIPSLIPS AT THE END OF EACH DAY. THESE DOHICKIES ARE VERY IMPORTANT BECAUSE THEY TELL YOU VITAL INFORMATION ABOUT THE TRIP YOU WILL BE GOING ON THE NEXT DAY, LIKE... WHO YOUR LEADERS ARE, WHAT YOU NEED TO BRING, WHERE TO MEET AND THE TIMES OF THE TRIP. NOTICE THAT LEADERS PHONE NUMBERS ARE THERE TOO. THEY ARE THERE SO THAT YOU CAN CALL YOUR LEADER WITH QUESTIONS, CONCERNS OR PROBLEMS SO FEEL FREE TO DO SO, BUT BEFORE 10 PM PLEASE US LEADERS NEED OUR SLEEP TOO! TRIPSLIPS ALSO CAN TELL YOU COOL STUFF ABOUT WHERE YOU'RE GOING AND STUFF TO LEARN / SEE THERE. AFTER LUNCH WE WILL USE EVERYTHING WE LEARNED IN THE MORNING TO KICK BUTT IN THE SCAVENGER HUNT. GABE AND I ARE TOTALLY CONFIDENT THAT OUR GROUP WILL WIN BECAUSE WE'RE JUST AWESOME! SO HOLD ON TIGHT AND GET READY FOR THE BEST MONTH OF YOUR LIFE!!

Leader: Jenny Casavant (969-2776)

TRIPSLIP # 1

July 1, 1997

Times: 9 AM - 2 PM

@ NSHS Greenhouse

Welcome to Envi -Sci

EQUIPMENT: Backpack, lunch, water, boots, Field Kit (notebook, pencils, first aid kit, extra boot laces, Raingear, sunscreen, bug spray)

Welcome to the Environmental Science Program, known to us insiders as ENVI - SCI !!!
We're all psyched to have y'all here so we hope that you're psyched for an awesome month! Our kickin' group for today is: **Shaina Korman-Houston, Jesse Sayles, Travis Ahern, and Gabe Yospin**. Woo Hoo!

You're probably thinking, "What ever is this piece of paper that I'm reading?" Yup, I know, I'm a mind-reader. Well...this is a **Trip slip**. Every day you will be getting one of these puppies and it will have all sorts of neat info on it, like: your **leader's name and phone number** (and don't hesitate to call if you have any questions), the **times of the trip**, the **date**, and **what you'll need to bring** for that day, and some hints about **what kinds of nifty stuff you'll do there**. Pretty neat, huh. Now it helps to read the trip slip before you go on the trip (i.e. the night before) for obvious reasons.

Today we will be learning lots of stuff and pay close attention so that when we have the
SCAVENGER HUNT AFTER LUNCH WE CAN KICK SOME SERIOUS BUM BUM !!

Welcome to the 1997 ENVIRONMENTAL SCIENCE PROGRAM!

Leader: Jeff Wong 332-3617
 Date: July 1, 1997
 Time: 9 am - 2 pm
 Trip slip #1
 Meeting Place: Newton South
 Students:
 The brave souls who are re-
 turning this summer:
 Angela Simunovic (1, 2, 3, 4...)
 Courtney Gowins
 The lucky kids here for the
 first time:
 Taylor Jacobson
 Vivek Rao

Hello, hello! Congratulations on making it through the school year. Your next mission: to have an excellent time this year at Envi-Sci! You'll have a blast this summer (even if your parents made you come here). So what the heck are you reading now? This here sheet is called a trip slip. A trip slip contains vital information like where to meet, what to bring, when to meet, your lucky numbers (7 15 31 47 51), and other important things. At the end of the day, you'll pick up a trip slip for the trip you're going on the next day. Very cool, huh? If you're getting bored reading this, too bad! Keep on reading....

Mr. ESP: What should you bring to the program each day?
 Your field kit!

Your field kit should include the following:
 over the ankle hiking boots, day pack, first aid kit (with moleskin and spare change), pencils, notebook, rain gear, pocket knife, canteen or bottle for lots of H₂O, lunch, extra boot laces
 Check your trip slips for anything else you might need to bring.

Today, we'll be doing a bunch of fun stuff. First, we'll all introduce ourselves and then the fun will begin. You'll learn how to use tree and flower guides, read maps, use compasses, and other funky stuff. Then, we'll become familiar with the local plant life (flora) at Newton South and the Newton Community. Pay attention because we will be having a scavenger hunt later on in the day, after lunch. Cool, huh? Yes. It's quite a special day today because we're not going anywhere. Tomorrow, we'll have our first real trips. Most trips are from 9 to 2, but not always. That's why you need a trip slip every day. So what are all these day trips for anyways? All these trips prepare you for the final mountain sequence including the final 3 day trip to Mount Washington. Yay!

Here is a practice multiple choice question to help prepare you for SATs.

1. The Environmental Science Program is often called
- A) Envi-Sci
 - B) ESP
 - C) ESPN
 - D) A and B only
 - E) A, B, and C, but only if B is sometimes true and the inverse of A is false

- SPECIALTIES
- Me - Wetlands
 - Pete - reptiles/amphibians
 - Jenny - Alpine environments
 - Sarah - Flowers
 - Alex - fungi

First Day

Leader: Peter Montague

July 1, 1997

Trip-slip # 1

Time: 9am-2pm

Equipment

Day Pack

Lunch

Water

Boots

First Aid Kit

Note Pad

Pencil

It is the first day of the Environmental Science Program. Today we are going to have a blast. We will be having a scavenger hunt. Today we will be working on some tree and plant identification, map and compass use, and, most importantly, having fun.

There are a few things that happen every day that you should know about. Every morning you will fill out a choice sheet. Choice sheets have the names of all the trips that are scheduled for the next day. All you have to do is choose your trips for the next day. Also, when we return to Newton South in the afternoon, you will be able to receive your trip-slips for the next day. Please read them. (By the way, this is a trip-slip).

We only have one month together, so let's try to learn as much as we can; but I hope that you also have the time of your life here at ENVI-SCI.

7/1/98

Welcome to Envi-Sci

Leader: Michael DYEN

244-0285

Times: 9 a.m. - 2 p.m.

Equipment you need each day:

- Hiking Boots Pocket Knife
- Extra laces Rain gear
- Lunch First aid kit
- Water Pencil and notebook

Today's Purpose:

Today we are just basically going to be hanging around Brown. We'll walk around the fields and look at different things. We will also have a scavenger hunt. Today is just a day to have fun.

Definitions:

Environmental: *adj.* of environmental; the aggregate of surrounding things, conditions, or influences as effecting the existence or development of someone or something.

Science: systematic knowledge of the physical or material world.

Program: a schedule to be followed.

Locusta: the spikelet of grasses.

Oscan: one of an ancient people of south-central Italy.

What the heck is this thing?

This piece of paper is what we call a *tripslip*. It tells the person reading it, that being you, all the information that you need for the following days trip. It is a slip of paper that tells about a trip..... *tripslip*. These are important to read because they will tell you the times of your trip, any special equipment that you might need to bring, and sometimes they contain fun facts, or recipes for pudding or directions on how to work a magnifying glass. All the important information that you will need, whether it is detailed guidance on how to tie your shoes or how to blow your nose, these sheets will have all of that. All mysteries of life can be solved by reading these tripslips. There is sometimes random stuff too.

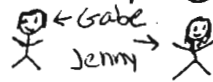

Fun Fact:

The US. is the most wasteful countries out of the top 17 industrial countries of the world. (well maybe its not so fun).

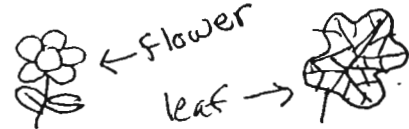

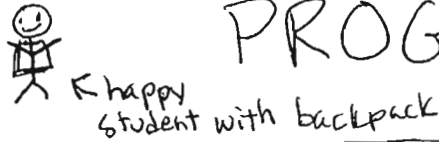

Welcome to the

WELCOME TO ENVI-SCI

Leaders: Angela Simunovic (527-7993)

Time: 8:45- 2

Jeff Wong () 332-3617

Location: Brown M.S.

Hello and welcome to the environmental science program. This is going to be a great summer so get ready to have a good time. For today your leaders are Jeff and, me, Angela. Everyday you'll have a new leader depending on which trip your going on. So lets get down to business.

TRIPSLIP- What you are reading right now is called a tripslip. Everyday after you return from your trip you will receive one or two tripslips telling you about your next trip. The tripslips will include everything you need to know like: where to meet, time of departure and return, (mostly from 9-2) where you're going , and what to bring. Tripslips are located on the table at the back of the room in the folders.

Since today is your first day we are going to spend some time getting to know each other. We will also go over the basics of orienting a map by using a compass. This is important so we'll all know how to do it on the mountain sequence. Another important task we have to day is identifying as many of the plants around Brown and Newton South so we can kick butt in a scavenger hunt a little later on.

Things to remember for the future:

- Always bring everything on the list
- It is crucial you remember lots of water, it's going to get hot and you'll need it as trips get longer
- Don't forget to read your tripslips, trips differ in time of return and departure

I do hereby proclaim this Tuesday,
the first of July in the year two thousand
and three the very

Your faithful leaders:

Sir Mabele McDellon

Program.

TRIPSLIP#1

TIME: 9am-4pm

EQUIPMENT: hiking boots,
day pack, pen and notebook, first aid kit,
rain gear, water, lunch, shining armor

Grab your swords and hop on your horses
because it's time to conquer the land of Brown Middle School!
Here we will identify all the species of the Kingdom
and perform the royal scavenger hunt; we may even
find the Holy Grail!  Be prepared to slay dragons
and learn about the  natural environment around
Brown. Pay attention because this knowledge will
help you to conquer evil in the future.

Leaders: Jesse Sayles (965-2719)
Mike Dyen (244-0285)

TRIPSLIP # 1

July 1, 1998

Times: 9 AM - 2 PM

@ Brown Junior High

Max the Mouse

Professor Fizzilsticks

THE FIRST DAY

Equipment: Backpack, lunch, H₂O, boots, Field kit (notebook, pencils, first aid kit, extra boot laces, Raingear, sunscreen, bug spray)

Professor: Max, I'm psyched for the start of Envisci, and the 1st Tripslip of the year.

Max: So that's what this peace of paper is, a Tripslip. Kick'n. But Professor, what kind of info is on a tripslip?

Pro: A tripslip has info to unlock the secrets of the universe. Acutely I'm just kidding. But it dose have the groups leaders, and there phone #. Times, date, and location. Equipment, what you will do that day, and other nifty facts.

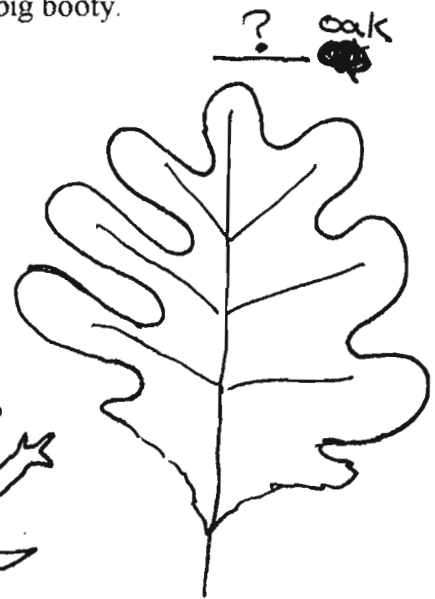

Max: Professor, if I or anyone ells has a question can we call our leaders?

Pro: Of course you can. But try and do it the night before, because if you try in the morning, your leaders may have already left fore the program.

Max: So anyway, what are we doing to day Professor?

Pro: Well were going to learn about some dope plants, like Pine apple weed and woodsoril, and tree identifications. Then were going to have a big scavenger hunt.

Max: Whaw! I bet if our group pays good attention, will kick big booty.

Dose anyone know how to use a Map & compass?

TRIPSLIP #1
JULY 1, 1998
LEADER: ALEX KRAUS - # 964-7768
TIME: 9-2 P.M. MEET @ BROWN

Envi-Sci '98: The First Day

HELLO, HELLO, AND WELCOME TO THE ENVIRONMENTAL SCIENCE PROGRAM. WHAT YOU ARE CURRENTLY READING IS SOMETHING US FRIENDLY FOLK AT ENVI-SCI LIKE TO CALL A TRIPSLIP. AT THE END OF EACH DAY, YOU WILL RECEIVE A SHEET OF PAPER SIMILAR TO THIS ONE DESCRIBING WHERE YOU WILL BE GOING THE NEXT DAY, AND WHAT YOU WILL BE DOING THERE. YOU MAY FEEL THE URGE TO SIMPLY DISCARD IT, BUT BE STRONG! TRIPSLIPS CONTAIN VALUABLE INFORMATION, SUCH AS WHERE AND WHEN TO MEET, AND WHAT YOU SHOULD BRING WITH YOU, AS WELL AS LOTS OF INTERESTING TIDBITS OF KNOWLEDGE THAT MAY AID YOU IN YOUR QUEST FOR INNER PEACE.

OK, next item of business. Your tripslips will tell you to bring a "Field Kit." So what exactly is a field kit you ask? Ah, read on and you shall see!

Field Kit:
Day Pack
Hiking Boots (over the ankle)
First Aid Kit (with moleskin and spare change)
Notebook and Pencils
Raingear (coat and pants)
Pocketknife
Water Bottle (bring at least one liter)
Extra Boot Laces
Lunch

Before I go I'm going to tell you a little bit about what we have planned for today. Not all that much actually; today will be one of the only days that we're going to stay at Brown. First we're going to cover some of the basics. You'll learn a little bit about how to use a map and compass, and become more familiar with some of the wildlife in the area (hopefully). What you learn in the morning will be important for the scavenger hunt after lunch, so pay attention. We're going to win or I'll . . . I'll . . . Oh, I'm just kidding. Well that's just about it, so have a great first day and welcome to Envi-Sci!

Trip slip #1
July 1, 1997
Times: 9am-2pm
Leader: Sarah Northrup
965-4602

Welcome to the Environmental Science Program!

Equipment list: Lunch, water, hiking boots, first aid kit, backpack, field kit (that whole list that was sent home)

Hi! This is your first day at the Environmental Science Program...(Commonly referred to as Envi-Sci) I'll be your leader today, but you will most likely have a different leader everyday. You are going to get to go on some really fun and interesting trips (and if you're not careful, you just might learn something...) This thing that you are reading right now is called a trip slip. You'll get one before every trip to let you know what you'll be doing when you get there, and if there are special times, or a different meeting location. Some important things do notice is the times, and who your leader is. On every trip slip will be your leader's name and phone number, if you can't come on that day, or if you (or your parents) have any questions give your leader a call.

Today we're going to learn a bunch of stuff, I know you guys are going to be getting a ton of new information thrown at you, so don't worry if you forget something you can always ask me, or any other leader, if you have any questions. some of the things we're going to learn how to do is how to use a map and a compass. We're also going to learn about many of the plants located around Newton South. With all of the different plants you're going to learn about, the one that I want to make sure everybody can identify is poison ivy because it itches and makes nobody happy so we want to make sure to avoid it. On a brighter note: **Let's have a great summer!!!!**

Question: Why would it be important for all of us to know how to use a map and a
compass

Angela: 527-7993
Danny: 738-0269

Environmental Science Program First Day!!!!!!!!!!!!*(8:00-~~3~~2:00)

Welcome to your first day @ ESP! My name's Danny, and let me be the first to say that this will be the best summer yet at envi-sci. We have a great summer planed out that's going to be kick'n!

Today's going to be a relaxing one for you, one of the only days where we actually stay on campus. We will be exploring the different plants, animals, and habitats that exist around the Brown/Newton South grounds. We also have a scavenger hunt set for later, and we better win!

For future times we usually go to different parks and sites with a certain subject at hand. You will receive a trip slip, like this, one day prior to the trip. It will include all the information you need to know. You will be mixed with different students and leaders every trip, so by the end of the summer you know everyone. It's important for you to bring plenty of water and have a complete field-kit everyday.

Hope you all have a great summer here at ESP, If you have any questions, just ask me, or any of other the leaders, and we'll try our best to help you out.

Trip slip #1

7-1-99

Leader(s): Gabe Yospin* 969-3966

* In case you forget,
Gabe is the tall, skinny
guy with glasses

Time: 9-2
Place: Brown
Middle
School

just me today!
You lucky kids have
me all to yourself

Things to bring:

1. your fieldkit
2. a lunch
3. water
4. boots

FIRST DAY!

Hey hey! If you are reading this, that means that you are in the 1999 Environmental Science Program. The object that you are holding in front of you right now (the piece of paper with all of the writing on it) is called a  Trip slip. Every day, you will receive a new Trip slip that will tell you everything that you need to know about the trip that you will be going on.

At the top of the trip slip, you will find the number of the trip slip, the date of the trip, the time of the trip, the places where the trip starts and ends. A trip slip will also have the names and telephone numbers of all the Leaders who will be going on that trip. There is also a list of everything that you will need. In case you don't know, a fieldkit is: a backpack, extra boot laces, raincoat + rainpants, first-aid kit, pencils + a notebook, and a swiss army knife. **DONT FORGET ANY OF THOSE THINGS EVER!!!**

Today we'll be walking around, identifying plants, and playing games. I hope that you're getting psyched for an awesome summer!

WELCOME TO ENVI-SCI! (ENVIRONMENTAL) (SCIENCE)

DANNY YAGODA
ANGELA SIMONOVIC
827-7443
TIME: 9-2 KACE: BROWN
WHAT TO BRING:
FIELD KIT, WATER,
LUNCH, BOOTS

GET IT?

TO SOME OF YOU THIS IS WELCOME BACK
TO OTHERS IT IS SIMPLY WELCOME. THIS IS GOING
TO BE A GREAT SUMMER! THERE A COUPLE THINGS
THAT YOU SHOULD PROBABLY KNOW, FIRST OF ALL, THIS
IS NOT A CAMP, PEOPLE HERE TAKE THIS VERY
SERIOUSLY AND IF THEY HEAR THE WORD CAMP
YOU WILL UNDOUBTEDLY BE CORRECTED, JUST GIVING
Y'ALL A FAIR WARNING, WHAT ELSE? RIGHT OK,
WHAT YOU'RE READING RIGHT NOW IS CALLED
A TRIPSLIP, YOU'LL GET ONE OF THESE EVERY DAY
~~BEFORE~~ AND IT TELLS YOU WHERE YOU'LL
BE GOING THE NEXT DAY, IT WILL ALSO ~~TELL~~
TELL YOU WHERE TO MELT, WHAT TO BRING, WHAT
TIME TO COME AND OTHER SUCH THINGS.

MOVING ON, MY NAME IS ANGELA AND
DANNY AND I WILL BE YOUR LEADERS TODAY,
WHAT WE ARE GOING TO DO TODAY IS HAVE
A SCAVENGER HUNT, IT'S TONS OF FUN! AND
WE ARE GOING TO KICK SOME B... NEGERMINIS,
WE GONNA WIN!

GET PSYCHED! THIS IS GONNA
BE A GREAT SUMMER!

TRIPSLIP #1

JULY 1, 1999

LEADER: ALEX KRAUS - # 964-7768

TIME: 9-2 P.M. MEET @ BROWN

Envi-Sci '99: The First Day

"What is this crazy piece of paper in front of me?" you ask. This, dear student is your very first tripslip. It is a wonderfully informative piece of paper that you will receive at the end of each normal day, describing the following day's trip. It is important that you read your tripslip everyday, in case there is a change in anything (times, meeting place, etc...) They also contain helpful knowledge and occasionally they are even a little entertaining.

OK, next item of business. Your tripslips will tell you to bring a "Field Kit." So what exactly is a field kit you ask? Ah, read on and you shall see!

Field Kit:

Day Pack

Hiking Boots (over the ankle)

First Aid Kit (with moleskin and spare change)

Notebook and Pencils

Raingear (coat and pants)

Pocketknife

Water Bottle (bring at least one liter)

Extra Boot Laces

Lunch

With that behind us, I would like to use a little space to welcome you to the Environmental Science Program. Those of you who have come before now what a great summer we have ahead of us. For you first timers, you'll catch on quickly. Oh, What joyous fun.

F i r s t D a y !

Trip slip # 1

When:

9am - 2pm
July 1, 1999

Where:

Brown Middle School

Leaders:

Jonathan Rivnay 527-1849
Jesse Sayles 965-2719

Equipment:

Hiking Boots, Lots of Water,
Super D-licious Lunch, and
Field Kit (Raingear, First Aid, etc.)

Hello Everybody, and welcome to the Environmental Science Program, better know as EnviSci or ESP or whatever. I bet you're all asking yourselves: "But Jonathan, what is this that I'm reading?" and if you asked someone who has been with the program before, they would tell you: "Wow! (Your Name Here), this is a *Trip slip!*" You will get one of these before every trip you go on this July. It will explain such basic details as where you're going, what's so special about this place, and where and when to meet.

Today, according to the Weather Channel it will be *partly sunny*. *Becoming more humid. High around 80.* So it should be a nice day (but I claim no responsibility if this forecast is inaccurate or incorrect). Today we will get to know our fearless leaders, and then walk around the Brown and Newton South Area and learn about our surrounding environment. Then, after walking around and havin' a kickin' time, we will eat our Big D-lishus lunch. And we'll wrap it up with the Scavenger hunt!
