MT. WACHUSETT

STUFF TO BRING: REGULAR DAY-PACK THINGS, 2 PAIRS OF SOCKS, 2 WATER BOTTLES, A BIG LUNCH, RAIN GEAR, A WARM LAYER FOR THE SUMMIT, AND, LAST BUT NOT LEAST... SNACK FOOD. (peanuts, raisins, cereals and M+M's are good)

THE MOUNTAIN SERIES HAS ARRIVED! RUN AWAY!
Well, actually, there is no reason to run away. In fact, the mountains are the climax of Envi-Sci. If you think the first few weeks of the program were good, just wait for the trips to come. They are worth the suspense! Mt. Wachusett is the shortest of the next 4 mountains we will be climbing, but it's still important. Our bodies aren't used to a heavy pack and our legs won't enjoy the steep climbing right away. So Wachusett is the perfect way to get ready. So come to South on Tuesday wearing two pairs of socks and carrying enough H₂O to get us to the top!

You may be thinking to yourself, "Mt. Wachusett is that ski mountain with the annoying radio commercial. Why in the world would we want to climb it?" The answer is that it is still a mountain and it has hiking trails as well as ski-trails. Since the forecast doesn't include snow we will be sticking to the hiking ones. Along with the physical activity, we will also be learning! We will discuss intriguing topics such as: What is hiker's rest step? How are mountains formed? How does zonation work on a mountain? Why is the sky blue? Why am I writing sideways? Why does Dan always say SHAZAM? SO GET READY TO HIKE! :) TOP!

July 19, 1993

Trip slip # 14

Leads -

Gordon, Lobo, Alt, Shimmey, Puddelop,

Whitewer. (244-9304)

Agatha - 969-7407

Mt.

Wachusett

Time - 8:00 am - 3:06 pm

Equipment - Booss
Field Kit, BIG tunch, H₂O,
2 pairs of sock, Gorp (Good old raisins
and peanuts) - if you want to ^{can} you add m&ms
and other sugar stuff. - RAIN GEAR, funny
hat. OPTIONAL: Bandanna, oranges and
other fruits.

We have finally made it. Our first
big trip, the head honcho of trips so far
and we can all sing about it. Wa-Wa-o
Wachusett. Hey Sergio, Rosa, Peter, Jenny

and Rebecca we are going to our first mountain. We have spent our last
2 weeks getting our selves into shape and you will feel the difference in the
mountains. This is the easiest mountain of our series. In the winter it is a
ski mountain and in the summer it is used for hiking.

On the trail there are certain
rules we have to follow as we do
when we are hiking. And so here
they are!!

Rules of the trail

1. Right of way - Hikers coming
down the trail have right of way. We
will move to the right when Hikers pass.
2. The AMC-MOITO (Yay)
"Leave only foot prints, take
only memories." We will follow
this rule carefully

1. This hike will take us 2006 Ft into the air
on trails that are very important for us to stay
on do you know why? Do you also know why
we will be able to tell what trail we are
on? (Hint the word pattern next to this is a hint.)
And a last item to ponder is what does erosion
do to the mountain.
How could it be that long, long, long 10 years
ago Wachusett was higher than Mt. Everest is today.
2. Does anybody know Junction and what shape
it will see on the mountain.
3. Sorry there aren't any funny pictures
so here's a mountain in a drawing.

Group: Rosa Sergio
Rebecca Marisa

time 8:00 - 3:00
be on time

Equipment: Field kit, lunch, 2 canteens, aarp, Raingear

This is your first mountain trip. Yeah!!!
We will be able to practice our map and compass skills. Wear warm clothes (layers) because every 330 ft that you climb the degrees goes down $2\frac{1}{2}$. The last few trips that you have gone on should have prepared for the mountain trips. Wachusett is the easiest of the mountain trips.

Trail Courtesy

- 1) Always stay on the trail
- 2) Always let other hikers pass. Clear to the right side of the trail.
- 3) Take only memories leave only footprints leave no trash.

Mt. Wachusett is about 2,006 ft high. It use to be higher. Why do you think that it has gotten shorter? We are going to have lots of fun today and get an idea on how other mountain trips will be

Questions to think about

What is tree line?
How high is tree line?

Why do you have 7 to stay on the trail?

What is the difference between dwarf and dwarfed trees

TRIP SLIP #14

Equipment: Field Kit	Extra Water
Layers - wind breaker, sweater or some similar type thing.	1st Aid Kit
	Sunblock
	Bug Repellent
	Socks
	Rain Gear...
	Wear 2 pps of socks!!

Welcome to the first MOUNTAIN TRIP of the summer! All of those agonizingly long walking trips are finally going to pay off as we start the most HIGHLY INCREDIBLE 2 weeks of Mountain Exploration! We will use what we've already learned about different ENVIRONMENTS to try to understand ALPINE environments + vertical ZONATION.

TRILLIUM is one of the tres rod flowers we may find on the mountains. It is a member of the lily family. There are many different variations. It is in the Trillium genus.

FIELD FOR YOUR FISH:
 Wachusett is a MONADNOCK the isolated hardrock remnants of a prolonged period of erosion.
 HUH? I'll explain in this trip, I promise!

BLISTERS are BAD
 Watch for HOT SPOTS!
 Drink lots, stay rosi!
 Look for INDIAN PI

(NOT TO SCALE)

Hiker's Courtesy - stay to the right. ESP lets all other hikers pass. Warn others of slippery

sweater

Xtra water
2 pps of socks
1st aid kit
Sunblock
bug repellent
snacks
ram gear
a happy face

(IF YOU FORGET
YOUR BOOTS
YOU ARE
OUT OF LUCK!!)

COMPASS
+ MAP work will
be revitalized +
rediscovered on this
trip. Remember things
like DECLINATION,
TOPOGRAPHY,
and SCALE?

THIS IS OUR FIRST
BONA FIDE
MOUNTAIN TRIP, so get
psyched! Mt. Wachusett
should be a fun challenge.
It's origin will be revealed
to you on the
mountain, as will many
magic secrets of the
mt. environs.

ZONATION,
a concept we have seen
thus far in a horizontal
sense (like the
change of plants
as one travels
from the middle
of a pond to
its shore.)
will now
be examined

SKIING...
is a main
Wachusett attraction.
How do ski trails +
skiers affect the
mountain
community?
???

HIKER COURTESY,
is allowing the
downward hiking
hiker to pass.
However, here at
E.S.P. the
rule is...
"Let the
other
hikers
pass!"

FLAKES FOR
Some spec
mountain are
laurel, huckle
canadense,
seal, and

YOUR
ies you
Bluebead Lily,
bush, bracken
false Solomon's seal,
Indian pipes.

Mt. Wachusett Mountain, Massachusetts

Gordon's trip slip # 12

July 21, 1992

Leaders - Gordon - 244-9304

Mt.

Wachusett

Times - 8:00 - 4:00

Equipment - Field kit, lunch, water, 2 pairs of socks, Gorp (Good old raisins and peanuts) you can add m&ms and other sugar snacks etc... if you want to, Raingear, Hats OPTIONAL: Bandanna, oranges and other fruits.

Yes, we're finally going into the mountains. This is where we really get to practice our map and compass skills, in the first mountain trip of the Environmental Science Program of 1992!! While we are on Wachusett we will talk about the environment there. This is not as big as Mt. Washington but it is equally important to obey the rules of the trail here as there.

Rules of the trail

1. Right of way - Hikers coming down the trail have right of way. We will move to the right side of the trail when they pass.

2. One important thing to remember when we are on the trail is the AMC motto.

1. Leave only footprints, take only memories. "This is one

Questions

1. Why is it important for us to stay on the trails?

2. What are things that tell you if you are on the right trail or not?

Discussion topics

1. We're going to talk about signs and what it can do to the mountain.

2. Wana on Wachusett!!!

Mt. Wachusett

Leaders: Denis Tomlinson
(244-3537)
Stacy (965-4988)

Stacy's trip July 26, 1992
TIME: 8am - 4pm

Equipment: Fieldkit, 2

pairs of socks, Big Lunch, BOOTS,
rain-gear, hat, & snacks: GORP
(Group is Good Old Raisins and Peanuts).
It is also a good idea to bring some
apples and oranges OR OTHER fruits.

Mt. Wachusett is located in Western
Massachusetts. Most people think of it
as a Mountain that you can sit on,
but there are also hiking trails
on the other side of the mountain.
We'll be practicing map and compass
skills for real now. There are no
roads, only trails, so you'll have to
pay careful attention to where we
are.

As we hike up the mountain we
will be able to observe different
stages of forest succession. Also
we will see different types of trees,
deciduous and coniferous. Do you
see the difference?

Wow! Finally, we
get to climb our first
mountain. Mt. Wachusett
is a new trip as of
this year so this will
be a first-time
experience for most
of you, even the
Returning student.
One important thing
to remember is that
ANC motto: "Leave
only footprints, and
only memories." This
means take
garbage with
you and throw it out
don't pick it up.
You see in
the
photo
of
the
mountain.

Trip #11 MT. WACHUSET July 21, 1992

Leaders: Daniel Ordorica (244-5023) &

Jennifer McKenna (332-7724)

Times: 7:45am-4pm

Equipment: (note: this is a MOUNTAIN TRIP so you will need extra equipment) Fieldkit, Boots, large lunch, 2 canteens, 2 pairs of socks, and some sort of trail mix(ex- G.O.R.P.)

Welcome to your first mountain trip of this year, and for many of you, the first time hiking Mt. Wachuset. After all those agonizing weeks of hiking from one end of Newton to the other, preparing for the mountains, the time has come. It will all pay off, and it will feel so good to finally be on top of Mt. Wachuset. But, although we are hiking the mountains, caution must not be thrown to the wind. If anything, caution is more enforced on the mountains. This is to protect you, other hikers, and helps to keep the mountains looking nice for everybody. So, a few rules of the

TIMES - * 8AM to 4PM * Leave at 7:45AM
 MEET - at South's parking lot
 LEADERS - Me and

MT. WACHUSETT

WHAT TO BRING:

- Field Kit
- 2 bottles of water
- BIG LUNCH
- Trail Mix (G.O.R.P.) ^{good old assist + de-nuts}
- Boots (w/ 2 pairs of socks)
- Rain Gear
- Extra sweatshirt or long-sleeved shirt
- Bug spray + sun tan lotion

TRAIL COURTESY:

- 1) Always stay on the trail. This becomes especially important on Mt. Washington.
 WHY??
- 2) Always let other hikers pass. Clear to the right side of the trail.
- 3) "Take only memories, leave only footprints" - AMC

THIS IS IT!! Our first real mountain. Hopefully, these last 2 1/2 weeks have gotten your bodies + minds in shape for the tougher mountain trips that are to come. Wachusett is the easiest of the mountain series. It is used for Skiing in the winter and hiking in the summer.

Lots of food and water are especially important because this trip is longer and harder than all the ones we've done so far.

Extra warm clothes are also key, no matter what the weather is like at the time. REMEMBER for every 1000 ft you climb the temp lowers 3-5 degrees.

SPACE THAT WILL BE FILLED ON TUESDAY IN OUR LOGS

Being is a good example of a mountain on the part that resembles the...

Consumer
 Producer
 How does this work?

July 21, 1992 Mt.

Leaders:

Gwen Corbett
(332-4015)

Times:

8:00am - 4:00pm

Equipment:

Field kit
2 pairs of socks
Big Lunch
Snacks
Rain gear
Hat

optional:

Gum, apples, oranges,
and a bandana.

Rules of Do Trails.

Any of you hear
the AMC motto

"Leave only footprints,
take only memories?"

It's the rules
we adhere to.

When we hike,
get into the
practice of
staying on the
trail.

We'll talk about
erosion, what
steps can be
taken to avoid
it and more.

Wachusett

trip slip #

Well, we're off to the
first Mountain trip of
ESP '92! Mt. Wachusett
is a great introduction
to the mountain environments
you'll be seeing in the next
2 weeks.

We're coming to the point
where Mapping + compass work
is very important. No, this
Massachusetts State Park is
not the Himalayas, but preparing
for our Mt. Washington stint
is important - some of the
conditions on Washington are
just as bad if you're unprepared!

Anyway, no streets here
folks, that's where our trail
Awareness & Map Skills come
in. I know you can do it!

Besides cruising through our
deciduous & coniferous forests
(who knows the difference?) Geol-
ogical formations and Ninja
turtles, we'll spend some
hiking time talking about
the creation of our state
parks, those wonderful trails
we hike down, and the
purpose and meaning behind
the words preservation
and conservation.

* what state authority can
charge w/ the state parks
* what does desecration mean?

MT. WACHUSETT

THURSDAY
JULY
21st

TRIP SLIP # 14

We're coming to get you!

Times: 8:45 AM - 4 PM meet at: Newton South Parking lot
as always, be on time.

FABULOUS!

WHAT TO BRING?
Bring your

field kit,
first aid kit, note-
book etc., as well as
1-2 canteens of water, rain
gear in case of rain.

A BIG LUNCH,
Near 2 pairs of
Socks, and be
prepared to have
an adventure!

Mt. Wachusett

is 2,006 ft above
sea level. Like

Mt. Monadnock, Wachusett
is a monadnock.

What does that

mean? Here's a hint - it is
believed that at one time
Wachusett was 23000 ft.
How is that
possible?

(hint -
glacial geology)

WHY EXACTLY DO WE NEED TO TRUST OUR GROUP?

In 1900 the Commonwealth the people who
live near Wachusett (Wachusett) decided to preserve
Wachusett for public use - it had
been known in the late 1800's
as a summer resort area.
Thanks to them we are able to
hike Wachusett. There are
some where around 20
different hiking trails
in different
trails.

2 things are happening today
1st is that we will hike up
Mt. Wachusett and acquire
ourselves with a mountain
game. We will be having
GEORGE'S GAMES on top of
the mountain!
It is important to trust your group
and learn to love them as we all
love the mountains!

Many of you may also know of Wachusett here
a ski resort. On top of Wachusett there are
some buildings and a parking lot - not very exciting
mountain summit but we will have
lots of room to do
GROUP GAMES!
