WALDEN POND

ALL THE STUDENTS (between 1991-94) - 2006

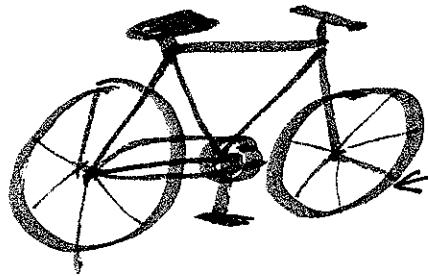

Congrats! You've made it to the final day of day trips. To celebrate we are going to go on the most difficult trip ever - the voyage across the River Styx to Hades and by "Hades" I mean "Walden". Walden is the home of Henry David Thoreau, a transcendentalist and a dead man. Yet we shall still visit because we shall pay our final respects,

because we
and die in the
process

What should be brunged: BIKE, HELMET, WATER, lunch, more water, a preserved human skeleton, sneakers, raingear

Walden

This bike
is an example
of what not
to have, make
sure your tires
are full of
air and your
bike is in good
working condition.

Pond

Who: Arin Hunter-Schlortholtz
617-928-3457

Mike McLellan
617-244-0498

What: Daypack, BIKE, Lots and Lots of water (this
is a 40 mile bike trip total distance), Lunch, Sneakers,
HELMET

When: 9AM - 4PM Start and End at Brown

Where: We will be biking to Walden pond where
Henry David Thoreau moved to like in his cabin and
became more in touch with nature in 1845 and
he later wrote a environmentalist book on it.

In case of Emergency your child will be brought to:

Newton Wellesley Hospital: 617-243-6000. This program must comply with the
regulations of the Mass. Dept. of Public Health and must be licensed
by the City of Newton Health Dept.

We're going to...

WALDEN

Tripslip #13

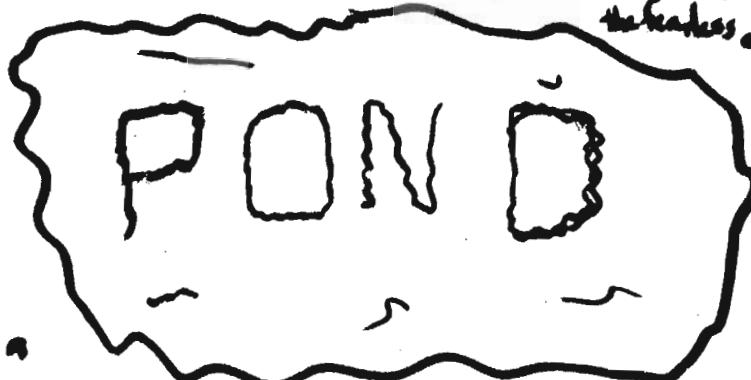

July 20, 2005
9 AM - 4 PM

Leaders:

Ari "Everything" Miller
(617) - 894 - 9160

Mike "Really Everything" Melville
617 - 244 - 0798

Socks,
always
good to
have

We're going on a

40 mile bike ride today, so get pumped

(literally, concerately your tires)!! Make sure to get a full night's sleep and bring LOTS of water. You'll be thankful later.

Walden Pond is a famous site, it's where Henry David Thoreau came to relax and get more in touch with himself and the nature around him. H.D.T. started the Environmentalist Movement, oh and what a crazy movement that ~~isn't~~! Bring a bathing suit and towel, because the reward for reaching our destination is a swim in Walden Pond. YEEE AHHH!!

Accoutrement (← long word that sounds intelligent but just means equipment)

- no boots, sneakers - any bike repair tools you have (spare tube, allen wrenches, etc.)
- AT LEAST 2 liters of water - HELMET - bathing suit + towel + pump...)

- BIG lunch

- bike in good working condition (preferably 10 speed)

MAKE SURE your bike tires are fully pumped and your chain is greased

In case of Emergency, your child will be brought to:
Newton Wellesley Hospital: 617 - 243 - 6000.

This program must comply with the regulations of the Massachusetts Dept. of Public Health and must be licensed by the city of Newton Health Department.

Tripslip #15

July 23, 2002

Time: 9am - 4pm Place: Brown

Leaders: Jeffrey "Bob" Decew (617) 964-7845

Nate Kaufman (617) 969-4144

EQUIPMENT: Field kit, BIKE, HELMET, Lunch, water,

4 lbs. solid riboflavin, bathing suit (if we have time to swim) and towel.

Quiz Question: Who was the only president to be born on July 4?

Answer: Calvin Coolidge

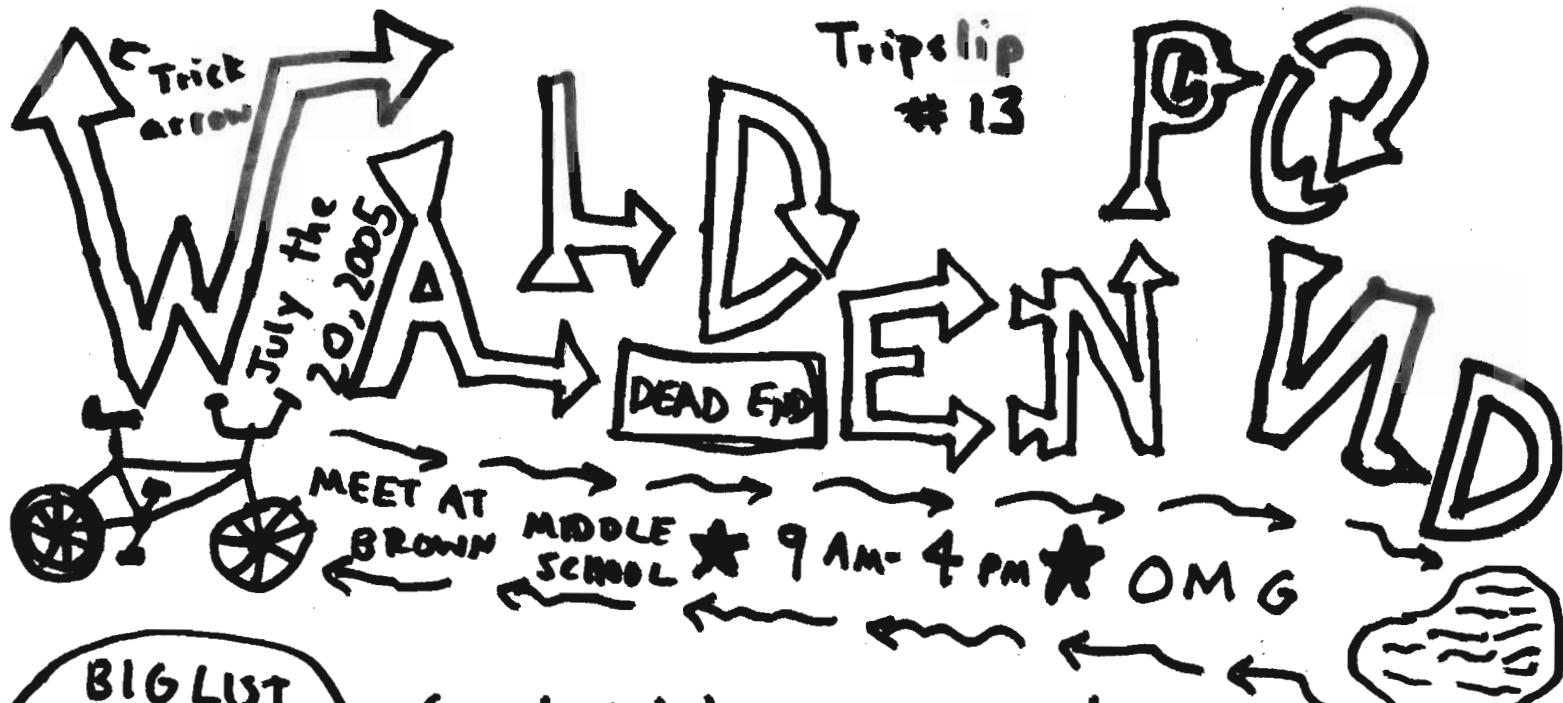

ANSWER QUESTION CORRECTLY ON TRIP AND YOU WILL BE REWARDED!

Kids, this is a loooooong bike trip; the longest you'll find 'round Enviro-Sci. But don't ye fret. It'll be fun. Maybe we'll go swimming. Or get ice cream. Or both. Or neither.

DID You Know: A man named Henry David Thoreau moved to his cabin on the pond on July 4, 1845, where he wrote a book, *Walden*, about his adventures in the wilderness. Here's a quote from his book:

"I came to the woods because I wished to live deliberately, to front only the essential facts of life, and see if I could not learn what it had to teach, and not, when I came to die, discover that I had not lived."

Trip slip
13

BIG LIST
OF EQUIPMENT

- * BICYCLE
- * HELMET
- * WATER, and
lots of it (LOTS)
- * LUNCH
- * Wear sneakers
- * Raingear
- * Sunblock
- * Money (~\$5)
- * Bike Tools if you've got 'em
- * a ram (to put in the ram-a-lam-a-ding-dong)

Great Windmills of Fire! The longest bike trip in the world! Today we're going to Wallen Pond, which is 20 miles each way. Grand total: **40** miles! Gaaaazoox. It's going to be hot, and it's going to be hard, but we're going to do it and when we do you'll feel wicked proud of yourself mush. Wicked sweaty too.

DISCLAIMER: Ari's trip slip may or may not say we'll be swimming there. That isn't really true. We can't swim there anymore. But we can totally dip our feet in. Wooh!

Ari "Holy Socks" Miller & Joey "I'm Sweaty" Badol
617-894-8160 & 617-969-0288

In case of Emergency, your child will be brought to:
Newton Wellesley Hospital: 617-243-6000.

This program must comply with the regulations of the Massachusetts Dept. of Public Health and must be licensed by the city of Newton Health Department.

BIKING!

Welcome
to

WALDEN POND

Walden Pond is a famous site, and can be considered the beginning of the environmentalist movement. Henry David Thoreau, a transcendentalist, lived at Walden. He separated himself from nature to learn about himself and nature. The remains of his house still exist today.

We will learn the difference between Environmentalism, Conservatism, and Protectionism. What do these terms mean? How can we help to "save the planet?"

What is recycling?
What about the terms reuse + recycling?

SUIT +
TOWEL.

THE REWARD FOR
A LONG RIDE IS
A SWIM IN WALDEN
POND! YEAH!

RECYCLABLE
ITEMS

Glass/Tin Cans

TRIPSLIP #13

July 19, 1993

Times: 8:30 AM - 3:30 PM

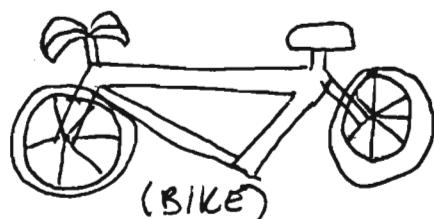

EQUIPMENT

- no boots - sneakers
- LOTS + LOTS of water (2 quarts)
- bathing suit + towel
- BIG lunch
- any bike repair tools
you may have (ie spare tube, allen wrenches, etc.)
- a bike in good working order (preferably a 10 speed)
- a helmet
- TRY to make sure your bike tires are pumped up and there is grease on your chain.
- bathing suit + towel

YOUR FEARLESS
LEADERS:

Pam Mahoney
(527-5831)

Lecca Thomasas
(527-2763)

Gordon's trip slip #9

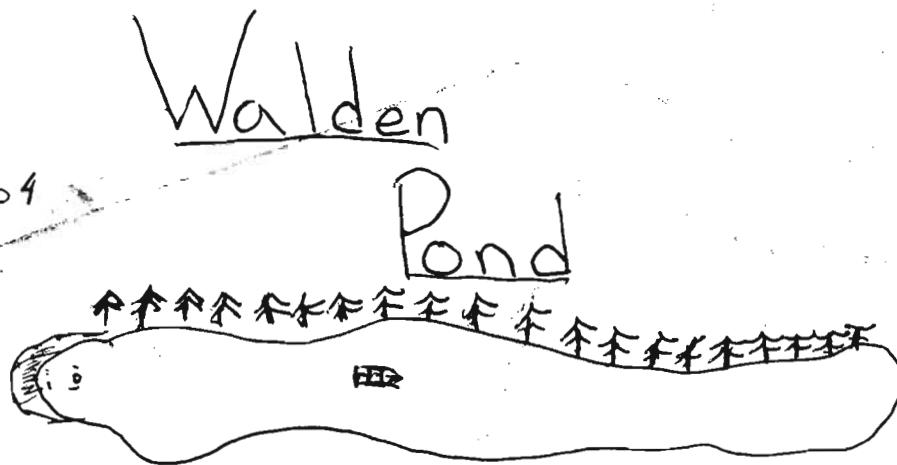

July 16, 1992

Leaders - Gordon - 244-9304
Delio - 244-3377

Times - 8:30 - 3:30

Equipment

- Sneakers
- field kit
- Lunch
- 2 canteens or water bottles.
(dehydration is when your body loses its water, which can be very dangerous)
- Spare bike tools (if you have any, please bring them.)
- Your bike
- Helmet - you don't go without one of these.
- Bathing suit and towel cause we're going to go swimming in Walden!!

This a very long bike trip so let's get pumped!! On this trip it is very important to remember all the rules of the road. ① stay on right side of road. ② Hand signals - right ↗, left ←, stop ⚫ ③ stay evenly spread out on the road.

The beautiful pond lured many people to its shores. One in particular is Thoreau. Thoreau was the founder of the American Environmental movement. We will see the remains of his house. There are some very important terms that we will use as we look at the beautiful lake and forest. These terms are environmentalist, preservationist and conservationist. Do you know what type of impact people like this have on the environment? Happy biking!

TRIPSLIP #11 July 18, 1994

WALDEN POND

Today we
will be going
on a LONG

bike ride to

the historic

site of Walden Pond. Henry David

Thoreau moved into his cabin on the pond on July 4, 1845. He moved there to write a book about his adventures in the wilderness with his then deceased brother, John.

He said "I want to go soon and live away by the pond, where I shall hear only the wind whispering among the reeds. It will be success if I shall have left myself behind."

Thoreau then wrote Walden about his experiences living alone on the pond's shores. The book, a collection of stories, was published in 1854.
(or thoughts)

Here's a quote to meditate with:

"I came to the woods because I wished to live deliberately, to front only the essential facts of life; and see if I could not learn what it had to teach, and not, when I came to die, discover that I had not lived."

BONUS: Where have you read this quote before?

#

9

Well you cycling buffs, it's off
to Walden Pond we go. A long
trip yes, but a nice reward
awaits us there - in the form
of cool waters.

But there's more at Walden
Pond than just nice water. Along
its shores a major founder of
the Transcendental Movement - the

beginner of the
American Environmental
movement, lived.

Can you name
him? Hint: Th-s-u.

We'll be exploring this
beautiful area and
discovering the site
of Th-s-u's home.
We'll be talking
about what environ-
mentalism means, and
what influence it
has and is playing
in society. What role
may environmentalism
play in the "new world
order?" What does
it mean to be an
environmentalist, a
preservationist, and
a conservationist?

See you Monday morning!

WALDEN POND

- bike trip (in case you hadn't guessed)

8:30 - 3:30 pm July 17th 1991

Leesa + Cole
(510-2763) (961-5857)

What you need to survive: Bike, helmet, signed permission slip, sneakers, bike tools if you have them like: a spare tire, tire repair kit, air pump; a water bottle that you can put on your bike and an extra canteen in your bag or 2 canteens, LUNCH, bathing suit and a towel.

This is a very long bike trip, you should be prepared and ready for this. There are 3 main rules of the road; when you bike you need to bike on the right side of the road with the traffic, you need to use your hand signals ~~right~~ left ~~stop~~ stop, and you need to be spaced out but not too spaced out. Most importantly however you need to work together as a group, part of this is being willing to ride in the back or the front or the middle no matter how fast or slow you are. Keep this also in mind: some people are slower bikers than others. ~~we do not~~ ~~do not~~ ~~do not~~ ~~do not~~ ~~do not~~ ~~do not~~ ~~do not~~ This is not important all of us will get there together, slowly but surely.

Remember to bring a suit to swim in at Walden Pond also your permission slip, helmet, and don't forget to check out the different times!

Think about what we will see and learn about at Walden

WALDEN POND

Equipment- Sneakers

LOTS OF WATER

Big Lunch

Times 8:30 am -

3:30 pm

Helmet

Field kit

Bike tools (if you have any)

Bathing Suit + Towel

Walden Pond

is a very long bike trip.
 But don't worry we will
 make it! You'll be ready for
 Mt. Washington after
 this one. If we get there
 in enough time we will
 be able to go swimming.

Walden Pond is
 a historic site. Henry
 David Thoreau a transcend-
 entalist used to live there.
 He believed that he could
 be one with himself and
 nature there. There are
 still remains of his cabin
 there. Henry David Thoreau
 is also considered the
 founder of the American
 Environmental Movement.

What is environmentalism?

It is the theory that the
 environment is the primary
 influence on intellectual growth
 and cultural development.

What is the difference
 between Environmentalism,
 Conservationism and
 Protectionism?

What does this have
 to do with us trying
 to improve the
 environment. One way
 we can do this is by
 recycling. Recycling is
 integrating waste back
 into the cycle of
 nature or using materials
 more than once.

What are the ways
 that we get rid of our
 trash and why aren't they
 good for the environment?

Date: 7-19-00

WALDEN POND

Here it is quickly: Walden pond is far away, and we're biking there. Because you've been getting Science all month, I thought I'd end your day trips with a collection of wisdom from Henry David Thoreau, a man who lived by the pond, and whom many considered the very first naturalist. He was also a great writer. In the interests of balancing your ESP experience, here he is:

- "Beware of all enterprises that require new clothes."
- "You do not get a man's most effective criticism until you provoke him. Severe truth is expressed with some bitterness."
- "Our life is frittered away by detail.... Simplify, simply."
- "There are a thousand hacking at the branches of evil to one who is striking at the root"
- "Nothing is so much to be feared as fear."
- "The most I can do for my friend is simply to be his friend."

Okay. You all now have my

Get a ton of sleep!

You'll need it to bike 40 miles!

Bring your swim stuff if you want to swim!

Leaders: Jesse Sayles (965-2719)
GabeYospin (969-9366)
July 19th, 2000

Location: Brown middle school

TRIPSLIP # 12

Equipment: backpack, lunch, WATER (two quarts), Field kit, sneakers, bike, HELMET, a shoo-horn, bike tools if you have any, bathing suite, towel, good karma.

Gabe: Ahh, Walden Pond one of my favorite trips. We'll do a little biking, swimming and water testing. Know this is a long bike trip, but *you are the slave-driver of yourself.*

Jesse: Gabe, it's rather cool to night.

Gabe: True, true. Lets turn up the heat in the Envi-sci staff house.

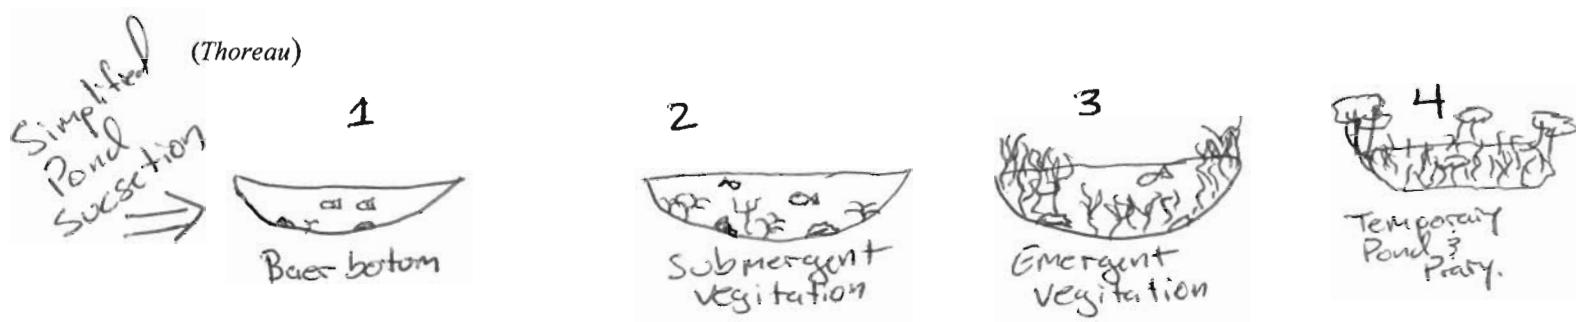

Jesse: But Gabe, *fuel except to cook his food, is then unnecessary; the sun is his fire, and many of the fruits are sufficiently cooked by its rays; while food generally is more various, and more easily obtained, and clothing and shelter are wholly or half unnecessary. At the present day, and in this country, as I find by my own experience, a few implements, a knife, an axe, a spade, a wheelbarrow, &c., and for the studious, lamplight, stationery, and access to a few books, rank next to necessities, and can all be obtained at a trifling cost. Yet some, not wise, go to the other side of the globe, to a barbarous and unhealthy regions, and devote themselves to trade for ten or twenty years, in order that they may live, -that is, keep comfortably warm, -and die in New England at last. The luxuriously rich are not simply kept comfortably warm, but unnaturally hot; as I implied before they are cooked, of course a la mode.*

Gabe: Good point. Jesse, are you all right? You are doing a weird dance.

Jesse: I just really got to pee.

Gabe: Hey, lets have the kids tomorrow test for ammonia at Walden Pond to determine if people are peeing in the water. See your cells produce ammonia, a poison, as waist. Your body immediately turns this in to urea, which is water-soluble; meaning it dissolves and mixes with h₂o. So you need to drink h₂o to flush it out. This also dilutes the urea making it less potent and harmful to your body. Birds excrete ammonia in the form of uric acid, which is not water soluble, so they don't need large amounts of h₂o to flush it out. Why is this good? Small organisms like hydra don't transform their ammonia. What's a hydra, and why don't they need to transform the deadly poison ammonia in to something less deadly like urea or uric acid?

(Thoreau)

Man, is your butt gonna be sore, 'cuz you're headed for...

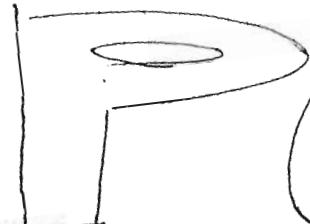

Walden Pond: it's so big; it's so round; it's just, like, out there. And we're biking to it! Hoo-rah! Whoopie! Walden Pond's natural beauty has inspired many, such as Henry David Thoreau the " bachelor of thought and Nature," meaning that he remained a single loner for all his days. Ha ha ha! No. Actually, he was a cold-chillin' writer who lived at Walden Pond for a while, writing about the harmony he found in nature's pristine calm isolated from human civilization. "Nature kicks civilization's ~~star~~!!" quoth the Thoreau. The large pond was formed by glaciers, when they last moved through the area, creating rivers & ponds while melting, and dropping sandy soil deposits all around. Oh, and we'll be going swimming, so do wear your bathing suit get READY TO RUMBLE!!! TRUE DAT!

READ THIS TRIPSLIP TO WIN CANDY!!!

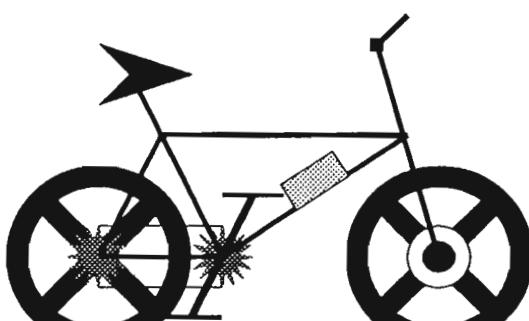

Walden Pond is one of the farthest trips in the program. We will be taking a very long bike ride into Concord, and we will be having a great time.

Walden Pond is well known for two things: Henry David Thoreau and high urine levels. I believe that Nate will be teaching you about Mr. Thoreau, so I will delve more deeply into the latter part, using the former's means of expression. Basically, what I just said: "I'm going to write about urine."

There are quite a number of ways in which urine levels effect the pond in a broad sense. Mainly, though, urine is acidic. It has a pH of about 5, which means that 100 liters of urine in 10,000 KL pond would make a pH of 6.99999 in the lake. That's almost no change, but if the urine piles up enough, as it has, it has, it will create harsh living conditions for animals in the pond. It already has.

I lied. We are now gonna talk about good ol' Henry. But first: name a Vice Prez. Who's initials were HHH. If you guessed Hubert Horatio Humphrey, You're CORRECT! Back to Thoreau. He wrote a book by the name of *Walden* (does anyone sense a pattern here?) which was about his experiment of living. He lived hermitlike near Walden pond (except for his mother who did his laundry and dishes (if it were modern day, he could have replaced her with appliances (bad idea, kids))) He built a house alone for \$28, grew his own food, used the pond for a toilet (we went over that), lasted 9 years before he finished his book and re-emerged into society. He went from a hermit to a wealthy man, after selling his books.

Walden is actually a good book, so we DO recommend it to the older, more ambitious students who have learned some stuff about society. Good Luck.

So, isn't Walden Pond sort of far away? Why YES! Walden Pond is about a **40** mile ride round trip. That's right, 40 miles! So get yourselves ready! This is the longest bike trip in all of Envi-Sci. It is also important that your bike be in good condition for the trip, so test it out the night before (tonight).

So, what ^{are} we doing there? We are going to try to do some sight seeing. Although, if we are too jelly-legges and exhausted from the incredible trip, we may just skip that part and go straight for the water.

Since my feet and legs are already aching just thinking about this, I'm going to cover the learning thing right now.

So a long time ago, this writer dude, named Henry David Thoreau, wanted to get away from 'civilization' which at the time meant walking 2 miles into the forest, pitching a tent, and viola! Instant hermit. So this Henry dude does this at Walden Pond and writes the book 'Walden' which is about his experiences. He was a crappet hermit though, because his mother, yes, his mother, came every weekend to do his laundry! Can you believe it? He's like a college kid!

In case of an emergency, your child MAY be brought to: Newton-Wellesley Hospital -- 617-243-6000

 - \$\$\$ for Ice Cream (if we stop on the way back)
 - Spare bike parts (i.e. inner tubes, etc)

Walden Pond
40 miles!

Where are we going?

Today we are going to Walden Pond. This is **the longest** bike trip of the year! Be ready and properly prepared for this trip when you arrive at South. If your bike needs any minor adjustments, please make them at home to save time. If you have additional bike tools, such as air pumps, or wrenches, please bring them along.

What can we do there?

If we are able to stand up straight and walk forwards without falling over, we will walk around the area and visit the site where Henry David Thoreau lived. If the weather is also agreeable, and if you're up to it, you can take a dip in Walden Pond. It is a your reward for making the long journey out there.

Bike safety information...

Since this is a bike trip, special rules apply. We *always* use our hand signals (we will go over them in the morning), and we always bike single file along the right side of the road. Most importantly, however, you need to work together as a group to get there, whether it means riding in the front of the group or the back. Don't rush things, it is better to get there safe than sorry. Remember, *some people are slower bikers than others!*

Things to think about...

Do you know your bike hand signals?

What sorts of things did Thoreau do during his life?

How did he contribute to the Transcendental movement?

July 13, 1992

Well you cycling buffs, it's off to Walden Pond we go. A long trip yes, but a nice reward awaits us there - in the form of cool waters.

But there's more at Walden Pond than just nice water. Along its shores a major founder of the Transcendental Movement - the

beginner of the American Environmental movement, lived.

Can you name him? Hint: Th...-

We'll be exploring this beautiful area and discovering the site of Th...-s home. We'll be talking about what environmentalism means, and what influence it has and is playing in society. What role may environmentalism play in the "new world order?" What does it mean to be an environmentalist, a preservationist, and a conservationist? See you Monday morning

WALDEN POND

Gordon Roble
Tripslip #12
7/19/95

Leader: Gordon Roble - 244-9304

Dan Polivy

Times - 8:30-4:00pm

Location: Brown Jr. High

Equipment: BIKE, HELMET, 2 WATER BOTTLES (one can be filled with other stuff like gatorade), shoes, field kit, sunscreen, big lunch

Today we will be visiting the site of the home of Henry David Thoreau, a very famous naturalist and author. In fact he wrote a book about his life at Walden Pond. An interesting book but unfortunately very dry, needs a lot of water to accompany it. While we're out at the pond we may have time to visit the site of this man as well as revel in the splendors of the pond, not to mention its waters, so bring a bathing suit in case we have time to swim.

It's very important to bring a lot of water on a trip like this because Walden is a 40-mile bike ride and we have to be careful of dehydration, particularly this summer where we are suffering from a drought and a lot of dry heat. While we are at the pond we will have a chance to examine the effects of this drought. The pond may be lower and many of the plants along the edges will have wilted or died. Can you guys think of any other signs or damage of a drought?

So in closing get psyched for a lot of good old fashioned physical exercise and a little quote from the man himself - Thoreau.

"I went to the woods because I wished live deliberately, to front only the essential facts of life, and see if I could not learn what it had to teach, and not, when I came to die, discover that I had not lived." and I also went because "I was determined to know beans."

EQUIPMENT: sneakers, shorts (if you have bike shorts I would suggest that you wear them), field kit (NO BOOTS), BIG lunch, 2 canteens, any spare bike tools, BIKE HELMET, a good working bike, bathing suit + towel for a swim in Walden Pond. If you have ANY questions, please feel free to call one of us.

WALDEN POND

This trip is a very long + exciting bike trip. Be ready and properly prepared for this! As a reward we will go SWIMMING - yeah! There are some things you should know about biking - the hand signals!

RIGHT TURN

LEFT TURN

SLOW DOWN
+
STOP

THE RULES OF THE ROAD:

1. Ride on the right side of the road
2. USE HAND SIGNALS
3. Stay spaced out

Walden Pond is a world famous nature area. Certain famous Transcendentalists have lived there to escape the busy life of the city - do you know the names of any of these?

Remember: be prepared! We'll all have to

Walden Pond

Your Leaders: Peter Montague# 969-4196
Dan Polivy# 964-1313

Time: 8:30-3:00 **Place:** Newton South High School

Equipment List

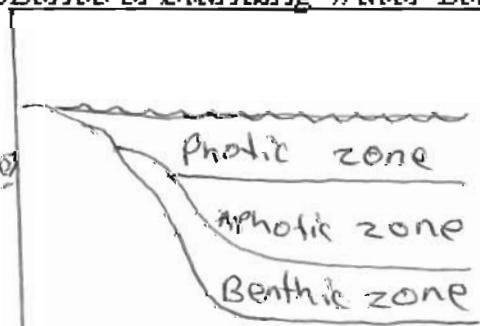

Books	Field Kit(including)
Day Pack	Extra Boot Laces
Lunch	First Aid kit(with mole skin)
Water	Spare Change
Sun Block	Small Note Book
Rain Gear	Helmet
sneakers	Bathing suit + towel

Walden Pond, hey thats whear that guy wrote that book. Yes thats right, Henry David Thoreau went to write Walden; or, life in the woods back in 1854. In every body of water there are at least two zones if not three, depending on the depth. The first zone is called the **photic zone**, this is the top layer which receives enough sunlight for photosynthesis to occur. The next layer is the **aphotic zone**, this layer receives no sunlight. Last is the **benthic zone**, this is the floor of a body of water.

Things To Think About Zones Of Standing Water Ecosystems

What are the three steps in pond succession?

Why is the photic zone the most productive?

Walden Pond

Leaders: Dan Thomases (527-2763)

Alex Kraus (964-7768)

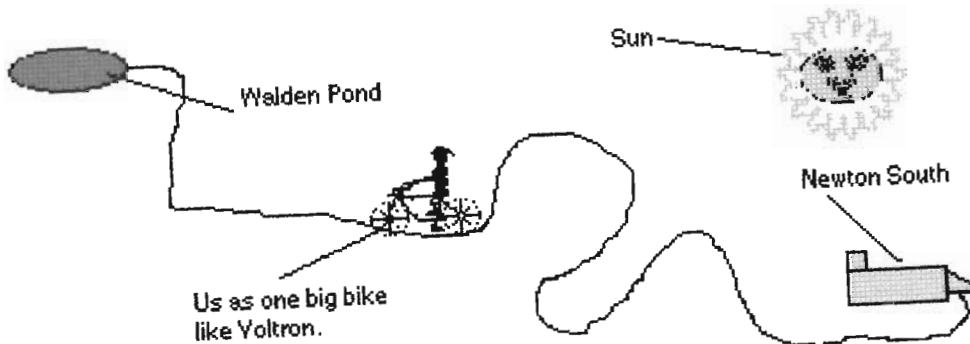

Date: Monday, 22 July 1996

Time: 8:30am-3:00pm

Equipment: Big Lunch, Lots of Water, Raingear, Bathing Suit, Bicycle, Helmet, Bike Lock, Any Bike Tools, tire pump, or extra inner tubes that might be useful to your bike, and of course your Field Kit.

Walden Pond is a loooong bike trip. Okay, okay, Walden Pond is not a bike trip, but more precisely it is a pond. We will be biking to it and that will be a long trip. The pond is located in Concord and is one of the more famous ponds in New England due to Walden written by Henry David Thoreau.

In parts of it, the book, speaks of the pond's beauty and serenity. Thankfully, the pond is still quite beautiful. Unfortunately, it is a well known pond, and therefore, throughout the summer it is a site for many hot and sweaty people. I'm sure these people do appreciate the pond for it's cool water but not as much for it's beauty like Thoreau spoke of. The people have left there mark and as we walk around the sides of Walden notice the erosion caused by us people.

This is our last day trip for the year. For the rest of the week, we will hike Mt. Monadnock and the Blue Hills and spend two days at Newton South for mountain prep days.

Walden Pond (A Bike Trip)

EQUIPMENT: BIKE, LOCK AND KEY, HELMET, SNEAKERS, FIELD KIT, SWIMSUIT AND TOWEL, SOME CRAZY ENDURANCE, A BIG LUNCH, LOTS OF WATER

Ah, the great Walden Pond. This a classic Envi-sci trip. This is probably because it is the longest Envi-sci trip. For those of you who don't know already, Walden pond is in Concord (As in 508 area code and really far away). However, don't let me get you discouraged. As a reward, for the long journey, we get to go swimming when we get there.

COLDER WATER HOLDS CONSIDERABLY MORE DISSOLVED GASSES THAN DOES WARM WATER. WALDEN IS A REASONABLY WARM POND. THERE FOR IT CAN HOLD LESS DISSOLVED GASSES THAN WOULD A COLD POND. CAN YOU THINK OF HOW THIS WOULD AFFECT THE FISH POPULATIONS IN THE POND? HOW ABOUT THE PLANTS?

ALSO, WHAT AFFECT WOULD THIS HAVE ON SUCCESSION?

WALDEN POND

TIMES: 8:30am - 3:30pm

This is a 40 mile trip!

Equipment List:

- Sneakers
- Shorts (Or weather appropriate clothing)
- Field Kits (no boots)
- Large Lunch
- Lots of Water
- Extra bike stuff if you have it
- HELMET!
- A GOOD bike - preferably 10-speed or better. Do as many adjustments (seat, etc.) at home to save time.
- OPTIONAL: Bathing Suit and towel to swim in Walden Pond (if we make it there).

This is a fairly long trip, but when we make it there, you can cool off with a dip in the pond.

Aside from a nice pond, Walden Pond is also the home of a major founder of the Transcendental movement, the beginner of the American Environmental movement. His name begins with a 'T' and ends with a 'W'. Can you guess who it is?

T-----u

While we are there, we will explore his home, and learn more about him.

A wheel → 

Yes, we are in for a bike trip. A very long bike trip. As a matter of fact the longest one in all of E.S.P. It's 40 miles! But we'll make it, no sweat. There is a reward however, if we get there promptly. We get to go swimming! After 40 hot, sweaty miles, this is a very good thing.

History Lesson (JOY!)

Trancendentalist Henry David Thoreau spent most

of his life living in a hut on the banks of Walden pond. Thoreau is said to be the founder of the American Environmental movement. We will get to see the remains of his cabin and talk more about him when we get there.

POND

Equipment

Day Pack, field kit, lots of water, a working bike, bike tools (if you have them), a helmet, sneakers, bathing suit, small towel, \$ for ice cream (maybe).

Today we will be traveling all the way to Walden Pond. This trip is the longest bike trip of the year, so get ready for a good workout.

Walden Pond could be considered the beginning of the Environmental movement. Transcendentalist, Henry David Thoreau lived there. He lived by himself in a small cabin near the shores of Walden Pond. The remains of his house is still there.

In every body of water there is at least two zones, if not three. ① Photic zone, this is the top zone that receives enough sunlight for photosynthesis to occur. ② Aphotic zone, this zone receives no sunlight. ③ Benthic zone, this is the floor of the body of water.

Zones of Standing Water Ecosystems

Welcome
to

WALDEN POND

Walden Pond is a famous site, and can be considered the beginning of the environmentalist movement.

Henry David Thoreau, a transcendentalist, lived at Walden. He separated himself from nature to learn about himself and nature. The remains of his house still exist today.

We will learn the difference between Environmentalism, Conservatism, and Protectionism. What do these terms mean? How can we help to "save the planet?"

What is recycling?
What about the terms reuse + recycling?

THE REWARD FOR
A LONG RIDE IS
A SWIM IN WALDEN
POND! YEAH!

TRIP DATE #:

July 19, 1993

TIME: 6:30 AM

AT: 7:00 AM

EQUIPMENT

- no boats - sneakers
- lots & lots of water (2q)
- bathing suit & towel
- BIG lunch
- any bike repair tools you may have (ie: screwdriver, Allen wrenches)
- bike in good working order (preferably a 1 speed)
- a helmet
- try to make sure your tires are pumped up and there is grease on your chain.
- bathing suit & towel

Walden Pond

is a very long bike trip.
But don't worry we will
make it! You'll be ready for
Mt. Washington after
this one. If we get there
in enough time we will
be able to go swimming.

Walden Pond is a historic site. Henry David Thoreau a transcendentalist used to live there. He believed that he could be one with himself and nature there. There are still remains of his cabin there. Henry David Thoreau is also considered the founder of the American Environmental Movement.

What is environmentalism?

It is the theory that the environment is the primary influence on intellectual growth and cultural development.

What is the difference between Environmentalism, Conservationism, and Protectionism?

What does this have to do with us trying to improve the environment. One way we can do this is by recycling. Recycling is integrating waste back into the cycle of nature or using material more than once.

What are the ways that we get rid of our trash and why aren't they good for the environment?
